BOARD ASKS FOR NEW INFIRMARY

Commissioners Today Request Appropriation of \$30,000 be Made by County Council.

TO BUILD A POOR ASYLUM

Definite Decision is Reached After Muncie Fire in Which 13 Lost Lives.

The county council, at the special meeting today, was asked to appropriate \$30,000 for a new building at the county poor farm by the board of commissioners. The council was not expected to act on the proposition until late today, but it is believed that steps will be taken to get a new modern building at the poor farm. The largest amount the council can appropriate in a single day is \$15,000.

The council adjourned this afternoon without taking any definite action. In the meantime, it was stated, the council will have Secretary Butler of the state board of charities here and go over the ground thoroughly. No action may be expected for three or four weeks, it is said.

The council was called to make some deficiency appropriations amounting to \$700 on two bridges that were recently completed. The board of commissioners appeared before the council and submitted the proposition asking for an appropriation not to exceed \$30,000 for the new building.

The commissioners have figured on a new building there for a long time and definite action was decided on this week following the fire at Muncie in which thirteen people of the county asylum lost their lives. The state board of charities has recommended a new building for the inmates at the poor farm here for the last ten years and it has reached a stage where something will have to be done. The state board recommended that the residence of the superintendent be left as it is but that a new building, modern through out be erected for the inmates and the appropriation of \$30,000 asked for by the commissioners would provide a building of this kind.

Plans in the hands of the state board of charities were gone over carefully by the board of commissioners and then they got in communication with architects, who had superintended the construction of similar buildings in other counties, regarding the cost. The commissioners also wrote to the county auditors of other counties regarding the cost and it was decided that a building could not be erected under \$30,000.

Edson Aiken, commissioner from northern district, stated this afternoon that he believed the council agreed that a new building should be erected and that the only discussion was over the amount it should cost. The county council paid a

TODAY'S ODDEST STORY.

(By United Press.)
St. Paul, Minn., March 27.—Ray Temple of Morristown, Minn., a college student, is living on rations which, he declares, cost just 10 cents a day. On such limited fare he has gained 40 pounds, and incidentally regained his health in five months. Temple's economy is not caused by financial worries, as he is not working has way through college, but merely to restore his physical vigor.

SELLS FARM FOR \$15,000

A. P. Walker Place Goes to Alexander Johnson of Shoals.

Alexander Johnson, of Shoals, Ind., has purchased the Jersey Isle Stock farm from A. P. Walker. The deed on file in the recorder's office shows a consideration of \$15,000, which is a record sale in Rush county for recent years. The Jersey Isle stock farm consists of 30 acres making the sale average \$500 an acre. The transaction included all the equipments on the farm, which is considered among the most modern in the state. It is not known when Mr. Johnson will take possession.

JURY OUT 5 HOURS AND IS DISCHARGED

Fails to Reach Verdict in Case of State Against Casey, on Statutory Offense.

VOTE REPORTED WAS 9 TO 3

The jury which tried Newton Casey on a statutory offense was unable to agree on a verdict and was discharged by Judge Sparks shortly after five o'clock Friday evening. The jury was out about five hours and reported to the court that there was no possible chance of reaching a verdict. It is understood that the jury stood nine to three in favor of an acquittal.

According to one of the jurors, a large number of ballots were taken and the result remained the same. The jury was hopelessly unable to agree and rather than hold them any longer Judge Sparks called the men in and discharged them.

Attorneys for Casey were elated at the disagreement as they considered it as good as a verdict in their favor. It is not known when the case will be tried again, but is not likely to come up this term of court.

COURT BUSY WITH CIVIL CASES TODAY

Finds For Plaintiff in Smith-Stern Suit and Modifies Crim Divorce Decree.

SUIT ON NOTES DISMISSED

The circuit court was again busy today with civil matters after having been occupied with a criminal case since Wednesday. Judge Sparks returned his finding in the case of Walter E. and Edith B. Smith against Joseph Stern on a contract, demanding \$300. The court found for the plaintiffs in the sum of \$70 and costs. The case involved the rental of the Smith room in West Second street, it being alleged that Stern moved from the room before his contract expired. The case was heard some time ago and taken under advisement.

The court modified the divorce decree for Jess Crim, and instead of paying a stated sum to Mary Crim Fair, he will be released from any further payments upon paying her \$50. The court decided that she should continue to have the custody of their child.

The case of Donald L. Smith against Dora and Ollie E. Guffin on notes and to foreclose a vendor's lien, demanding \$1,850, was dismissed by the plaintiff and the costs paid.

POVERTY THEORY IS SCOUTED HERE

Relatives of C. F. Dale Who Shot Wife and Killed Himself Say He Wasn't in Need.

OWNED HIS OWN PROPERTY

Former Rushville Man Leaves Note Before he and Wife Carry Out Suicide Pact.

What is believed to have been a death pact was entered into between Charles F. Dale, formerly of this city, and his wife at Los Angeles, Cal., yesterday afternoon. The couple apparently made carefully considered plans and went to a lonely hillside near Avenue Thirty-three and Griffin avenue, which was close to their home at 5852 Camerford avenue and there, one or the other, presumably Mr. Dale, fired a shot into the other's brain, and then killed himself.

Mr. Dale was a son of Mr. and Mrs. E. O. Dale and a brother of O. M. Dale of this city. The relatives here were greatly shocked when they read of the tragedy in the morning newspapers. Mrs. Tom J. Geraghty, of New York City is the only child of Mr. Dale. The woman he killed was his third wife.

Powder marks on his temple indicated that Mr. Dale had first killed his wife and then shot himself. He was dead when found and Mrs. Dale was rushed to a hospital, where there was little hope maintained for her recovery.

Relatives here are at a loss to account for the tragedy and do not believe stories sent out from Los Angeles that the deed was committed rather than fight poverty. The local relatives state that if he had been in need he could have secured aid from here and they believe there was something else back of the affair. It is stated that Mr. Dale owned his own property and that unless some misfortune overtook him within the last few weeks he was in no danger of facing poverty.

His father here is eighty-six years old and recently Mr. and Mrs. Dale celebrated their sixtieth wedding anniversary. Local relatives attempted to get word from Los Angeles this forenoon but were unsuccessful. No word was received last night by either the father or the brother and so far no word has been received from Mrs. Geraghty in New York as to whether she received word of her father's death.

Mr. Dale is well remembered here although he had been away from Rushville for the last fifteen years. When he left this city, he located in Cincinnati and then went west from there. Mr. Dale left the following note:

"Wire my father, E. O. Dale, Rushville, Ind., and my daughter, Mrs. Ethel Geraghty, Bayside, L. I. Also wire wife's sister, Mrs. Pearl Stafford, Frankfort, Ky. Answer all inquiries by letter, if at all. It is cheaper and, besides, there is no hurry. We will be a long time dead."

"P. S.—Some one of our relatives or friends please scatter our ashes to the four winds from Mt. Holywood or Mt. Lookout."

WAS FROM BOX 36.

Another false alarm was turned in from box 36 corner of Second and Washington streets last night. The alarm was sounded at ten-thirty o'clock. This is the box that has caused the fire department more or less trouble for some time and the key of the box may be placed in the residence of some one near there.

FIRST MEETING IN TENT HELD

Emerson Ballard of Crawfordsville Addresses Farmers on Foundry Lot This Afternoon.

SPEAKS AGAIN TONIGHT

Places For Women's Prayer Meetings Monday Afternoon Are Announced Today.

The tent was erected on the foundry lot and fitted with seats and a stage and the ground covered with sawdust in time this afternoon for the farmers "dry" meeting which began at two o'clock and which was addressed by Emerson Ballard of Crawfordsville.

Mr. Ballard will speak on the temperance question again at seven o'clock this evening and following the address a picture show, "Ten Nights in a Bar Room," will be shown. Special music will be provided.

With warm afternoon sun shining down on it, the tent was said to be very comfortable for the audience this afternoon. Salamanders were to be lighted directly after the afternoon meeting to heat the tent for the night meeting. It was pointed out that the tent was much warmer than the coliseum because the sides were tied down and every precaution was taken to keep out the cold air.

This afternoon's meeting was the beginning of the last lap of the "dry" campaign. Tomorrow three meetings will be held at the tent, at 9:45 a. m.; 2 p. m. and 7 p. m. Col. D. M. Perry, cattle auctioneer and celebrated temperance advocate of Columbus, O., will speak to men at all of these meetings. Sunday morning the men's adult Bible classes of the city will march to the tent. In addition a women's meeting will be held Sunday afternoon at two o'clock at the First Presbyterian church, to be addressed by Mrs. Elizabeth Stanley, and a mass meeting will take place at the Main Street Christian church at night at seven o'clock, to be addressed by four ministers of the city.

Prayer meetings for Monday afternoon at 3 o'clock will be as follows:

Mrs. J. F. Gillespie, 1026 N. Maple St., leader, Mrs. Ed Billings; Mrs. Carl Webb, 1028 N. Perkins, leader, Mrs. Wm. Alexander; Second Methodist Parsonage, E. Eighth, leader, Mary Fisher and Mrs. Wm. J. Waite; Mrs. Allen Holden, 210 E. Seventh, leader Mrs. Lowell M. Green; Miss Sadie Williams, 425 N. Perkins, leader, Sadie Williams; Mrs. F. G. Hackleman, 515 N. Morgan, leader, Mrs. J. R. Carmichael; Mrs. James E. Watson, 805 N. Main; Mrs. H. H. Elliott, 838 N. Harrison, leader, Mrs. Harriett Abbott; Mrs. Wilson Stewart, 811 W. Tenth, leader Mrs. Steve Boyer; Mrs. Ruby Petry, 631 N. Sexton; Mrs. A. P. Wagoner, 830 N. Jackson, leader, Edna George; Mrs. Link Guffin, 501 N. Harrison, Mrs. V. W. Tevis, 315 N. Harrison, leader, Dr. V. W. Tevis; Mrs. S. J. Finney, 122 W. Third, leader Dr. A. W. Jamieson; Mrs. Atwell Boling, 319 N. Hannah, leader Mrs. Mary Holmes and Mrs. Homer Cole; At the church, Pearl & Water, leader, Mrs. A. W. Jamieson and Rev. C. M. Yocum.

BOMB UNDER MAYOR'S HOUSE.

(By United Press.)
Dennison, Ohio, March 27.—Mayor W. A. Pittenger's home was partially destroyed by a dynamite bomb early today. The mayor and his family escaped injury. He has been warring on "bootleggers." The bomb was placed under the mayor's bedroom.

SIXTY-ONE TAKE EXAM

Test For Teachers' License is Held Today.

A total of sixty-one took the examination for teachers' licenses today at the examination room in the court house. This is the third examination of the year and the number, according to Superintendent C. M. George, holds up remarkably well. The number today was about the same as took the examination for the corresponding month last year. The largest number that ever took the examination was last month when seventy-eight applied for licenses to teach.

EASTHAVEN BARN BURNS DOWN TODAY

J. L. Cowing, Member of Asylum Board, Receives Word of Fire There Early Today

HAY AND GRAIN ALL SAVED

J. L. Cowing, a member of the board of trustees of Easthaven insane hospital at Richmond, was notified by the superintendent this morning that fire destroyed the large barn at the asylum about one o'clock this morning. The origin of the fire was a mystery. Two attendants who were sleeping in the office on the second floor of the barn leaped to safety because the structure was a mass of flames when the fire was discovered. One of the men was severely bruised by jumping from the second story.

The barn was valued at eight thousand dollars. The building was insured for \$5,000 and the contents for \$1,500. The fire brigade at the asylum was able to save all of the contents except the hay and grain. Horses and vehicles were taken out in time.

Mr. Cowing will attend a meeting of the board the first of next week when it will be decided what arrangements shall be made to house the things saved from the fire.

WORK OF RAISING SUBMARINE STARTS

F-4 Located and Some Navy Officials Are Still Hopeful of Rescuing Crew Alive

A FLEET IS READY TO HELP

(By United Press.)
Honolulu, March 27.—The dredge Honolulu arrived from the Pearl harbor naval station today and the actual work of raising the submarine F-4 was begun.

The California's powerful derricks and cranes are expected to bring the submerged vessel to the surface by tonight.

Some navy officials were still hopeful that some men of the 2 men entombed in the F-4 may yet be rescued alive. A fleet of vessels including the submarine flotilla are ready to render every assistance.

The submarine was located late yesterday afternoon 300 feet below surface of the water.

Rev. H. L. Phillippi of Milroy was in this city this morning, returning home, after attending the Christian Conference in Arlington.

GOVERNMENT RESTS TODAY

Defense in Terre Haute Conspiracy Trial Begins Introduction of Evidence.

MONTGOMERY ON THE STAND

Says he Worked on Voting Machines "to Protect Them Against Routh Usage."

(By United Press.)

Indianapolis, Ind., March 27.—The government rested its evidence in chief in the Terre Haute election corruption conspiracy trial at 10:20 a. m. today.

The government had heard 318 witnesses, consuming three weeks time.

"I am absolutely satisfied with the showing of the government," said District Attorney Dailey, after leaving the court room. "The proof could not have been stronger."

After a brief recess, Judge A. B. Anderson asked all in the court room who would testify for the defense to rise. All of the 28 defendants, including Mayor Donn M. Roberts, Judge Eli Redman and Sheriff Dennis Shea arose.

The defense then placed on the stand Harry Montgomery, president of the Dom Roberts board of public works and a defendant in this case.

Montgomery made a general denial that he took part in any election frauds but Daily forced him to admit that he worked voting machines for voters contrary to law. He said he worked them "on request to protect them against rough usage." Montgomery became confused and contradicted himself several times on cross-examination.

The government today appropriated the voting machine which had been brought here by the defense to show that a voting machine used at the Terre Haute election could not be manipulated illegally. George W. Greenleaf, expert mechanic of Rose Polytechnic school, demonstrated that the lever could be moved fourteen inches and slammed back without registering.

District Attorney Dailey then recalled evidence that Mayor Roberts had conducted a school for inspectors in which he instructed them to operate the machine for themselves and used the machine in showing them how to do it.

Damaging evidence was given yesterday afternoon against Harry Montgomery, president of the board of works. Rolla Jenkins, clerk of the registration board, testified that Montgomery continually operated the lever of the voting machine over protest of members of the board.

The Secret of Advertising

Advertising is a very simple thing—simplicity itself.

It can be summed up in this way.

Having something to say—

Saying it in the right way—

Saying it in the right place at the right time.

And in the latter phase of the problem the daily newspaper stands pre-eminent.

It is essentially the right place and as it is published day in and day out it is easy to suit the words to the time.

Newspaper advertising is the most productive form of advertising.

Spring Neckwear

IN THE LATEST COLORS AND DESIGNS

Our spring showing is complete and includes imported and domestic silks in those rich, all-over figures, in the popular bias stripes and in the more modest patterns. We have made a specialty of neck-wear this year and offer you the highest grade cravats at a special price of

50 Cents

We just received the summer weights of "VASSAR" Underwear. We say it is the best to be had. What we mean by the best is that this underwear is made on patented machinery and is controlled exclusively by the "VASSAR" company. "VASSAR" Union Suits do not merely cover the body—they FIT the body and are comfortable, because the garment is shaped in the knitting—not cut to shape with a pair of shears and then the pieces knit together. The "Swiss Rib" is what makes them "fit" instead of "just cover" the body. We have your size in Athletic, one-quarter, three-quarter or full length.

\$1.00 to \$3.00

Let us refer you to a host of satisfied "VASSAR" wearers.

Notice to Contractors

Notice is hereby given that the undersigned School Board of Rushville, Rush County, Indiana, will at their office at Rushville, Indiana, until the hour of 1:00 o'clock P. M.

MARCH 29, 1915,

receive bids for the following supplies and fixtures:

1—Electric Light Fixtures and their installation, for the Graham Annex School Building, Rushville, Indiana.

2—Auditorium Chairs, eight hundred more or less.

3—School Desks, three hundred seventy, more or less, twenty per cent of which must be adjustable.

4—Teachers' Desks—ten.

5—Thirty-six school room chairs; and four tables for sewing.

6—Thirty-six drawing desks.

In accordance with the specifications and plans therefor now on file at the office of the School Board at Rushville, Indiana.

Each bidder will be required to deposit with his bid a certified check on a reputable bank to the amount of five (5) per cent of the gross amount of his bid, made payable to Dr. J. B. Kinsinger, Treasurer of the School Board, Rushville, Indiana, which shall be retained by said treasurer of the Board as liquidated damages in case such bidder shall be awarded the contract and shall fail within five days thereafter to enter into a contract and execute a bond for the fulfillment of the work contemplated, according to said plans and specifications. Checks of unsuccessful bidders shall be returned after the execution of a suitable contract and bond by the successful bidder.

Bidders upon items 2, 3, 4, 5, 6, shall bid separately upon the different items, but may also make a bid for the completion of the whole amount.

The School Board reserves the right to reject any and all bids.

BERT A. MULLIN, President.

DR. J. B. KINSINGER, Treasurer.

H. A. KRAMER, Secretary.

School Board of the School City of Rushville, Indiana.

WILSON PEACE EFFORTS FAIL

His Emissary Will Leave Berlin Tomorrow Convinced Negotiations Are Untimely

GREY SAW IT FAVORABLY

But Foreign Secretary's Speech in London Knocked Chances into Into Cocked Hat

BY CARL W. ACKERMAN
(U. P. Staff Correspondent.)

(Copyright 1915 by U. P.)

Berlin, (Via The Hague), Mar. 27. President Wilson's newest effort to bring about a cessation of hostilities in Europe has met with failure. Colonel E. M. House, the president's personal emissary will leave Berlin for Switzerland tomorrow convinced that peace negotiations at the present time are impossible.

Despite denials from Washington, Colonel House came to Europe on a mission of peace. I learned from authoritative sources that he was sent by President Wilson to sound the governments at war and learn through informal interviews whether there was any possibility of a truce and a peace conference before the spring campaign caused more blood to be shed on the battlefields of Europe.

Colonel House conferred with Sir Edward Grey, England's foreign secretary with the French prime minister Rene Viviani, and finally with Herr Von Jagow, secretary of German foreign affairs. With all possible courtesy and with the most kindly interest Colonel House has been told that there is no possibility of a peace compromise at this time.

It was reported in diplomatic circles here that Sir Edward Grey was supposed to look upon a conference of the warring powers quite favorably. President Wilson's emissary brought that word to Berlin but while Colonel House was engaged with German officers Sir Edward Grey delivered a bitter attack on Germany in a public lecture in London, assuring his hearers, according to reports published here, that the allies were determined to crush Germany at any cost. Grey's speech knocked any lingering chances of peace into a cocked hat.

The German people were never more confident of eventual success. A second recount of the war loan showed that a total of \$2,355,000,000 was subscribed and aroused the greatest enthusiasm in government cities.

Savings banks throughout the Fatherland are crowded with members of the working classes eager to subscribe. It is probable that a still greater total will be reached because the date for closing the subscription has been extended until April 10 enabling soldiers afield to subscribe.

West Virginia is Broke

State Treasurer Temporarily Suspends Honoring of Drafts.

(Associated Press)

Charleston, W. Va., March 23.—West Virginia has declared a moratorium. With no funds in the state treasury, State Auditor John S. Darst has suspended the honoring of drafts. This means that all state officers, from the governor down, will not be paid for probably three months, that all buildings under course of construction will be halted and all supplies for institutions can not be bought except for cash. The main cause for the trouble is said to be the loss of more than \$600,000 revenue annually from liquor licenses throughout the state. One result is to put the military out of existence.

Rushville and Rush County

As has been predicted for several weeks the Indiana Brewers Association is using the last few days of the campaign to flood our city with statements *UNSUPPORTED BY FACTS*, in order to confuse the issue and mislead the voter. The *PAID AGENT* of the Brewers greatly underestimates the intelligence of our citizens if he thinks his plan to deceive will not be generally recognized. It is not his purpose to carry on a campaign of education as to the benefits of the open saloon, or he would have begun his work two or three weeks ago. He waited for the last four issues of a daily paper with the hope that there would not be time enough to make reply.

HIS STATEMENTS ONLY

The assertions in the wet ad. are only the unsupported statements of the *PAID AGENT* and nothing more. He would raise a scare-crow to our business men by telling them they are losing trade and that it is going to surrounding wet cities. Mr. Brewery Agent knows this statement is not true. *OUR MERCHANTS KNOW THIS STATEMENT IS UNTRUE*. The fact is that for the past two years, the business of our own merchants has been much above the average of those of nearby cities and Mr. *PAID AGENT* doubtless knows this fact also.

RUSH COUNTY THE NATURAL TERRITORY

The natural territory for business of our own merchants is Rush county, not Henry, nor Shelby, nor Hancock, nor even Marion county as the Brewers adroitly intimate. When they say: "Surrounding us (meaning Rushville) are thriving communities, etc.," they speak the truth and they might have added with equal truth that these Communities Are All Dry. If here be such a demand on the part of the people of our county for the saloon in Rushville, Will The Brewers Explain how it happened that at an election where the voters of the entire county had an opportunity to express themselves on this subject the MAJORITY AGAINST THE SALOON WAS 2200 and practically all of this majority came from the voters outside of Rushville. Also, how does it happen Mr. *PAID WRITER* for the Indiana Brewers Association that *NOT ONE* of these thriving communities of our county supports or tolerates a single saloon in their midst and according to your argument thus draw to itself the trade of the county. Has it ever occurred to the Brewers Association that the women of our county are desirable patrons of our merchants? Do you think they would be attracted to Rushville by the presence of the open saloon?

THE ALLEGED AWFUL LOSS

Listen to the Awful Loss sustained by the people of our city and county in revenue. The Brewers' *PAID AGENT* tells us that the county would receive \$1400.00 per annum. Think of this immense sum going to the people of our county. It would mean the Large Amount of SEVEN CENTS each for the persons living in the county. This would not pay for Gasoline For a Single Trip to Rushville. But, he says, the city loses \$3500 which the saloons would pay. This statement presents a simple sum in Arithmetic (for we have not discussed the moral question at all.)

Question—Where do the Saloons get this money?

Answer—From their customers, the people of Rushville.

Question—What is the population of Rushville?

Answer—About 7000.

Question—How much would this be for each person?

Answer—FIFTY CENTS.

Question—After paying fifty cents would the person paying it have more money left to pay the grocer and other merchants?

Answer—Certainly Not.

Question—By paying the fifty cents would the person paying it become more efficient and able to earn more than before?

Answer—No. He would be Less Efficient.

Question—Then how would other and legitimate lines of business be benefitted?

Answer—They would not for many men would not stop with fifty cents but must of their earnings would go to the saloon, their families would suffer and the trade of our merchants would decrease.

Question—Would there be any expense to our City and County in securing this revenue?

Answer—Yes. Reliable statistics tell us that for Every Dollar the Community or State receives from the Saloon it pays out from TWO TO THREE DOLLARS in increased cost of Crime, Poverty and Insanity.

Mr. *PAID AGENT* in his Ad., asks "Do We Get Our Money's Worth?" Will he be kind enough in his next communication to the voters of Rushville, whom he seeks to instruct, to explain what he means by that expression, "Do we get our money's worth." Has he a money value for all the things the Saloon brings? If so tell us Mr. *PAID AGENT*, what is your valuation of a *Mother's Broken Heart*—how do you estimate in dollars and cents the *Crushed Life of a Wife and Ruined Home*—tell to this community how the saloon would pay for the *Blasted Hopes of a Young Man* or the *Ruined Life of a young Girl*? *Does Human Life Have No Value Beyond a Money Estimate*?

But you will say, these things will happen even if there are no saloons and you did say in your Ad., "Prohibition causes no decrease in the amount of liquor consumed." Then tell us Why the Indiana Brewers Association is Paying You to Come to Rushville to Advise the People in This Campaign?—Such an Exhibition of Pure Unselfishness on Your Part and Theirs is Truly Remarkable and Worthy of a Better Cause than the one you represent.

Again we Warn the Voters of Rushville Not to be Stampeded by the Unsupported Statements of the *PAID AGENT* of the Indiana Brewers Association Given out in the Last Hours of the Campaign.

VOTE "YES" FOR RUSHVILLE.

—Miss Gladys Wallace spent the day in Indianapolis.

—Mrs. John Kiplinger spent the day in Indianapolis.

—Miss Gwinup of New Salem spent the day in this city.

—Mrs. O. C. Brann spent the day with friends in Greensburg.

—Douglas Morris spent the day on business in Indianapolis.

—James Ochiltree of Connersville spent the day here on business.

—Mrs. Mary Gilson of Mays was among the shoppers in this city today.

Chas. W. Eliot on Prohibition

President Emeritus of Harvard University

Former President Eliot of Harvard, sums up the whole case against prohibition in its effects on the social and political life he says: "The efforts to enforce it (prohibition) during forty years past have had some unlooked-for effects on public respect for courts, judicial procedure, oaths and law, legislatures and public servants. The public has seen law defied, a whole generation of habitual law-breakers schooled in evasion and shamefulness, courts ineffective through fluctuations of policy, delay, perjuries, negligence and other miscarriages of justice; officers of the law double-faced and mercenary, legislators timid and insincere."

The Wets claim that the ministers do not pay taxes. An examination of the tax duplicates show the following taxes paid—

Father Lyons, each year since 1913

Rev. Yocum, each year since 1912

Rev. Jamieson, each year since 1912

Rev. Batchelor, each year since 1913

Rev. Huntington, each year since 1913

Rev. Lambert is not on the duplicate as he moved to this city in January of this year.

—H. P. Overleese of Greensburg spent the day on business in this city.

—Miss Ilva Bever of Glenwood was among the visitors in this city today.

—Mrs. Viola Haywood of Farmers, spent the day with friends in this city.

—Denning Havens left this morning on a few days business trip to Chicago.

—H. B. Wilson went to Milroy this morning to spend Sunday with relatives.

—Mrs. Charles Frazee and daughter Helen were in Indianapolis today.

—Mr. and Mrs. J. A. Fisher of Mays were among the visitors in this city today.

—A. R. Shireliffe of Cincinnati, spent the day with L. C. Snodgrass in this city.

—Mrs. Cora Rea of near Falmouth was among the visitors in this city today.

—Will Alexander and W. M. Alexander, Sr., were in Richmond today on business.

—Mrs. George Wingerter left yesterday afternoon for an extended stay in Denver, Col.

—The Misses Carrie and Pearl Kitchen were among the visitors today in Indianapolis.

—Miss Elizabeth Stewart of Gings was among the passengers this morning to Milroy.

—Miss Edith Morgan of Clarksburg who has been visiting relatives in this city, went to Greensburg for a visit with other relatives this morning.

Rt. Rev. P. J. Donohue on Prohibition

Roman Catholic Bishop, Wheeling, W. Va.

"While I recognize the evils of the liquor traffic, I am nevertheless driven to the conviction that prohibition will be a failure in the attempt to cope with such evils. In many states it is already a failure, the net results of such legislation being to multiply illicit bars, and at the same time to deprive the commonwealth of the revenue accruing from license."

—Miss Bessie Morgan of Connersville, who spent a few days with relatives here, left this morning for a visit in Greensburg.

—Miss Myrta Havens has returned to her home in North Main street, after a three months' visit with relatives in Detroit, Mich.

—Vernal Cassady of Bloomington is spending the spring vacation with his parents, Mr. and Mrs. James Casady, west of the city.

—Miss Myrtle Holmes returned to Muncie this morning, after being called here on account of the death of Abraham Holmes.

—Miss Freda Hiner, who is attending Indiana University at Bloomington, is visiting her parents, Mr. and Mrs. John D. Hiner, in this city.

—A. F. Stewart, professor of Latin in Monmouth college at Monmouth, Ill. and formerly a member of the Rushville high school faculty, is here visiting relatives and will return to his home Monday.

—Miss Sallie Ferree left this morning to spend the day in Carthage, and from there will leave tonight, accompanied by Miss Blanche Jessup of Carthage, for a few days stay at Winona Lake, Ind.

TWENTIETH ANNIVERSARY.

Oak Leaf camp No. 3, 915, Royal Neighbors of America, celebrated their twentieth anniversary last Tuesday evening. Following a bountiful supper sixteen candidates were initiated by the Shelbyville degree team at eight o'clock. The work was highly appreciated. The remainder of the evening was spent in dancing and with games. The visiting degree team was met at the train and escorted to the hall.

Mrs. Fred Newman of Raleigh underwent an operation this morning for appendicitis at the Sexton sanatorium.

GOVERNMENT RESTS TODAY

Continued from Page 1.

the Progressive sheriff and scores of citizens.

When the defense tried to show the oarod consented to let Montgomery do this, Judge Anderson said: "It makes no difference whether any one agreed to it or not. The evidence is that Montgomery did it. The law says he had no right to do it."

Dave Hanna described how he and Joe Jeffers called citizens into the polls after the machine was set up "to show them everything was square." After the citizens had left they pulled 119 false registrations from behind a beer box, he said, wrote the names into the official records and voted them.

Joe Jeffers, former special patrolman and confessed gunman and conspirator, admitted that Mayor Roberts instructed him to select a "fixed" Taylorville election board so that a false vote could be run in.

"Roberts told me not to appoint any fools that could not be handled. He said he didn't want anybody on the board whom he couldn't buy," said Jeffers.

People's Column

Editor Daily Republican.

In a "wet" advertisement in your paper yesterday the statement was made that eleven business rooms were vacant and 5 out of the eleven had been vacant for two years. Now what are the facts? To my personal knowledge every one of the 11 business rooms have been occupied part of the time during this period with possibly the exception of P. A. Miller's room on East First street, and if the truth were known I believe this room was not absolutely vacant all of the time during the two years, but was "occupied" part of the time. At least I have noticed men going in and coming out of it every time I made a business call upon Mr. Miller, while performing my duties as City Treasurer. Either the writer of that "wet" ad. was woefully ignorant or wilfully lied.

But what about our business prosperity during the two years that Rushville has been "dry?"

There has been the Beale Brothers business building on the east side of the square and the Rushville Steam Laundry Building, and the Sampson Grocery building and the Michael Seanlan business building built during that period; also an addition to Clark & Son's Mill and The Charless E. Francis Co. factory. One new green house established and another one greatly enlarged; and our electric welding machine shop built. There has been five new grocery stores opened up and one new variety store during the same period.

Government statistics show that during the past two years 20 per cent. more workingmen were out of employment in "wet" Connersville than in "dry" Rushville; 25 per cent more laboring men unemployed in "wet" Newcastle than in "dry" Rushville; 30 per cent more laboring men unemployed in "wet" Richmond than in "dry" Rushville; 35 per cent more laboring men unemployed in "wet" Shelbyville than in "dry" Rushville. If saloons bring prosperity why was this condition possible?

Now, a word as to the future of Rushville. If the saloons are voted back, it will be for only two years, and we will have to go through the same process of re-adjustment we have just gone through; but if we keep them out this time they will never be able to come back again, and our empty business rooms will eventually be filled with business that will be permanent and not be a menace or disgrace to our 20th century civilization.

"Has Rushville got what she bargained for?" Yes, and "then some," therefore I am going to vote "yes" next Tuesday. JOHN P. STECH.

Amusements

The Gem will show a feature picture "The Monster and the Girl" for the program tonight. Miss Vinnie Burns is featured. One of the thrilling scenes is a fierce struggle on a jagged cliff with a sensational plunge to the rocks below. Another of the big scenes is a fire at sea. Monday night the two reel detective drama "A Gentleman of Art" will be shown. Dorothy Phillips and William Welch is featured.

The Princess will show a two reel comedy "A Mix-up in Dress Suits" for the first picture tonight. Billy Quirk is featured and it is said to be a clever production. The other is a drama entitled "By a Strange Road." Richard Travers and Gerda Holmes are featured. On Monday night the five reel Brady feature "The Wishing Ring" will be shown. Vivian Martin is featured.

ROBBERS STEAL \$10,000

Blow Safes in Chicago Mail Order House Early Today.

(By United Press.)

Chicago, March 27.—Eight masked robbers early today broke into the mail order offices of Babson Brothers, beat Watchman Kasterly insensible, blew five safes and escaped with an amount between \$4,000 and \$10,000. Kasterly may die. The robbery was one of the worst in the history of Chicago. Vice-president Babson said there must have been ten explosions.

Let's All Get Together

Isn't it about time for the people of this community to get a little closer together and work in a little closer harmony one with the other? A country town and the farming community surrounding it are brothers and the one cannot succeed without cooperation and active assistance of the other.

A farming section without its adjacent railroad and market facilities would be a back number—a dead-end—with little future ahead. Live farmers would shun it—would have nothing to do with it—for live men create a surplus, and they must have an outlet for that which they create.

A farm adjacent to some live town and shipping facilities is worth double that of a piece of ground with equal fertility located in some obscure section of the country. The relative value of the products of the two farms would be about the same—the one high, the other low.

Therefore the farming community is dependent upon the town and its advantages for much of the rural prosperity, for the high value of land, for the ease with which shipments are made.

Farmers who believe in themselves who want a prosperous community, should encourage the town and its industries—should buy from the home dealers, should keep the money in the home community, where it adds to the commercial life of every person.

Every dollar a farmer keeps in circulation at home simply adds that much to the riches of his own community, to the value of his own holdings.

The town and the town merchant owe an equal duty to the farmer, for without his cooperation both town and merchant would perish.

The town should make the farmer welcome, let him feel that he is among friends, that it is his town, that he has a personal interest in its welfare.

The merchant should make it possible for the farmer to buy his goods as cheaply at home as he can from some foreign house, and he should keep this fact constantly before the farmer.

He should encourage the farmer by keeping reliable goods and selling them at a reasonable price. Most merchants do this, although the absence of the merchant's advertisement from the local paper keeps the farmer in ignorance of the fact.

He should encourage the farmer in all ways, exhibit a brotherly feeling and spirit, and give the farmer to understand that he is interested in his welfare as well as in the contents of his pocketbook.

It has been demonstrated repeatedly right here that farmers can buy as cheaply from the local dealer as they can from a foreign house.

But the foreign dealer floods the farmer with advertising matter, while some local dealers expect to be taken on faith.

And the farmer is a wise one—he takes nothing on faith.

"Show me" is his creed. And he goes to the man who advertises—who "shows him."

Now isn't it about time for us all to think a little, to get together, to push this community right up to the front.

General Carranza is compelling foreigners to "cough up" "kick in" hand over their "dough." And so did Huerta—before he skidded. Let's hope.

We heard a fellow discussing wheat yesterday without the bat of an eye lid. Some people always do talk in the millions.

The courage of some men is sublime. A New York judge has just ruled that a wife's wages belong to her husband.

A married woman invariably feels flattered when told she does not look it. So do we.

Columbus, Ind., 592 "Wet"

"Drys" did not carry a single ward in Columbus Option Election.
"Wets" gather oin more than 62 per lent of the entire vote of the lity.

WHY?

Because after a public discussion of the drink problem lasting more than a week the intelligent citizenship of Columbus, both men and women, came to the conclusion that the openly and lawfully conducted liquor traffic was infinitely superior to the secret, unlawfully conducted Blind Tiger—Prohibition Liquor Traffic. The citizenship of Columbus determined that if to drink was an evil, that they did not propose to add the vice of hypocrisy to the evil. The "Drys" sent in a petition signed by alleged "dry" farmers asking that Columbus be made dry. Some Columbus business men asked these supposed "dry" farmers if they would take oaths of total abstinence, providing that the business men should recommend Columbus climbing on the wagon. Not one of these vociferous "dry" farmers would make any such pledge. The idea! Then, said the business men of Columbus, if you intend to buy liquor secretly, by mail order, you had better buy it openly in Columbus, a much more decent and manly thing.

The business men of Columbus declared after investigation, that they did not believe that there could be found ten men in Bartholomew county who would sign a total abstinence pledge. Everybody got to laughing and pretty nearly everybody voted "wet."

Another thing Columbus business men studied was the rate of taxes of nearby dry towns as compared with wet towns. Here are the figures.

Tax rates of nearby "dry" towns in Indiana as compared with "wet" towns, figures being obtained from the auditors of the several counties:

DRY TOWNS

Bloomington, Monroe county	\$4.60
Mitchell, Lawrence county	4.44
Bedford, Lawrence county	3.84
Rushville, Rush county	3.82
Average rate of "dry" towns	\$4.17½

WET TOWNS

North Vernon, Jennings county	\$3.76
Shelbyville, Shelby county	3.04
Seymour, Jackson county	3.56
Columbus, Bartholomew county	3.04
Average rate of "wet" towns	\$3.34

Average higher rate in "dry" towns than in "wet," eighty-three and one-half cents on the hundred dollars.

Here is another little table applying directly to Rushville's Tax Rates:

1912—Wet	\$3.27
1913—Dry	\$3.58
1914—Dry	\$3.82

Always going up. The "Drys" will say that Prohibition Government has nothing to do with these figures. But they couldn't tell that to the business men of Columbus. There were twelve orderly conducted saloons in Columbus, each paying \$500 a year into the treasury. Columbus found that the loss of this money would mean a 9 per cent increase in the city tax rate. In addition, that city would have to borrow \$6000 at once to take care of city expenses if the city treasury were deprived of the \$6000 license money to be paid in next month. The Columbus business men investigated Greensburg. They found that as soon as the eight saloons were voted out of Greensburg, the council met at once and raised the city tax rate from \$1.05 to \$1.10.

CITY TAX RATES

Rushville, "Dry"	\$1.85
Columbus, "Wet"	\$1.10

Columbus owes \$100,000 for city water plant and tax rate of \$1.10 takes care of interest charges.

Columbus people asked the "Drys" what the city was to receive in the way of benefits, if the taxpayers should vote for Local Prohibition. Columbus asked the "Drys" what kind of businesses were going to be started in the twelve fine business rooms now occupied by the liquor dealers. The "Drys" didn't answer, for they couldn't. They tried to make the Columbus business men believe that by some sort of mysterious hocus-pocus

that tenants would be found for the rooms just as the Children of Israel were fed by manna from Heaven. Nix for the Columbus business men.

Another thing the Columbus business men found out was this—that very bad moral conditions prevail in those communities which have voted out the licensed liquor dealer in favor of the blind tiger and dope drug store. Mr. Andrew Willoughby, former mayor of Greensburg, and now editor of the Greensburg Review declared in a public statement that the twenty-three publicly conducted blind tigers in Greensburg were instilling disrespect for all forms of the law and that the moral conditions of the city were the worst in the history of Greensburg. Traveling men say that Greensburg is the wickedest city between Louisville and Chicago.

Muncie voted out the licensed liquor dealer a year ago. Every man who reads the newspaper knows the conditions that prevail there now. Two hundred blind tigers! Secret murders! One Tiger conducted within a block of the High School! School boys seen drinking in this resort! City employes urging girls to enter lives of shame!

The thing that lives in light,
So that all men can see,
Is cured of half it's wrong,
If it an evil be.

Liquor has been used by the human kind ever since there has been any record of what men have done. That it will probably be used until the end of time is demonstrated by the fact that the very men who don't want the other fellow to use it, will not agree to stop using it themselves. They can trust themselves, but they can't trust the other fellow. They want to tell the other fellow that he "shall not" use it. The result is that the other fellow, not permitted to drink lawfully insists in doing it unlawfully.

The "dry" banishes the licensed saloon from the public eye and says "all is well." The traffic is simply driven into the alley or dark retreat of some kind and the blind tiger and bootlegger take up the work. The attitude of the dry is just as sensible as the man who puts a little talcum powder on a dangerous sore and says, "Now, I cannot see it. Therefore all is well. The sore may kill the man, but he won't know it until after he is dead.

In 1899 we manufactured 97,000,000 gallons of whiskey. In 1913 we manufactured 185,000,000 gallons. The "drys" now claim 54 per cent of territory "dry." The Anti-Saloon League has had fourteen years to produce these results. Question: How much whiskey will we consume if it should make the whole country "dry?"

From 1905 to 1913 we reduced the total of retail liquor dealers 23,758. "Great," says the "dry"—but wait a minute. During the same time we increased the number of wholesalers 3,296. People who buy by wholesale drink by wholesale. That's why Kansas and Maine are going to the dogs. Kansas, the Prohibition Paradise, suffered an actual numerical decline in population last year. The governor of the state admits the people are sending away more than \$2,000,000 a year for whiskey. The mail order houses are getting rich, but Kansas is getting poor. The state is so poor that its public school system ranks the twenty-fourth in the United States as to efficiency and twenty-ninth as to payment of teachers. The people are so poor that their per capita savings are only \$4.15. The average per capita savings for the whole country is \$71.50. Poor old "wet" Indiana has more than \$13,500,000 in the savings banks with 33,650 depositors—\$388.01 to each depositor. The Prohibition Paradise has a little more than \$4,000,000 in the savings banks with 20,240 depositors, an average of \$231.69. "Wet" Indiana has more than three dollars to one for the Prohibition Paradise. These figures are given by Hon. Royal E. Cabell, in an article in Leslie's Illustrated Weekly, Nov. 12, 1914, page 466, gathered from United States Census Bulletins.

The most singular phenomenon of the effect of humbuggery prohibition is its influence on the spiritual life of the people of Kansas. There are forty-four states in the Union and Kansas stands forty-third as to church attendance. The churches are deserted. Just enough pastors to marry and bury the people. A New York World writer in attempting to analyze this phenomenon suggests that since Kansas is sending millions away each year to buy whiskey while pretending prohibition, neglecting the education of her children so that this terrible secret vice may be enjoyed, casting her unfortunate insane into poor farms to eke out their miserable lives, another price paid for mail order whiskey; that the Kansas man has lost his self respect; that he knows he is a fraud and that he knows that his pastor knows it, too. The Kansas man does not want to face his pastor. Jesus could stand anything but hypocrisy. The lie of Prohibition is killing religious sentiment in Kansas. Evidently there is something even worse than Intemperance—Ungodliness, perhaps.

That's your Prohibition movement and the intelligent men of the country are getting wise to it. They don't want it. Cardinal Gibbons is against it. Charles Eliot, emeritus president of Harvard is against it. William H. Taft is against it. Woodrow Wilson is against it. Theodore Roosevelt is against it. Washington Gladden, the great Congregationalist Divine of Cleveland, O., is against it. The Rev. Lyman Abbott, editor of the Outlook and associate of Col. Roosevelt is against it. These men know that the use of alcoholic liquors among men cannot be stamped out by law. There never was a great thinker in the whole world who has believed it possible. Thoughtful men know that the drink problem is an economic, educational and medical problem. It is not a moral problem. Therefore the wise men of the world say that licensed regulation is the thing.

Rushville cannot settle the drink problem for the world. Any town will weaken itself financially when it tries to do so. The Rushville business man is unjust to his business and his family when he votes to uphold any such madness.

Get in line with the big thinkers of the world.

VOTE "NO" MARCH 30th

Acts of Recent Legislature Are Explained by Expert, John A. Lapp

(This is the twelfth of a series of articles explaining the new state laws written for the United Press by John A. Lapp director of the bureau of Legislative Information. Editor.)

For the Blind

The Indiana Association of Workers for the Blind made a good record this year during the session of the Legislature and three laws were passed benefiting our blind citizens. Governor Ralston it will be remembered, specifically recommended legislation for those beyond school age who have lost their sense of sight and the most important of the enactments in behalf of the blind was in response to his recommendations.

This new law confers on the already existing board of trustees of the Indiana school for the Blind an additional title of the Board of Industrial Aid for the Blind. There are additional duties the most important of which are, first, to make a complete survey of existing blindness in the state with particular stress on the capacity of the blind for educational and industrial training and on the prevention of blindness; and, second, to act as an employment bureau to find work for the adult blind who need such assistance, to help them in learning and establishing home industries and

in finding a market for their products.

These are the "shall" parts of the law, which must be carried out. But further "may" or permissive clauses appear by which the board is given power if it wishes to exercise it, to establish schools for the adult blind and work shops for their employment. Also the board may attempt to ameliorate the condition of the blind by promoting visits to their homes and by cooperating with the state library in distributing books in type for the blind. Any officers, agents or assistants that the board decides are necessary in carrying out any of these lines of work it is authorized to appoint and to fix their compensation. It will be interesting to see how much the new board can accomplish with the appropriation of \$10,000 which, wisely distributed, and in good administrative hands, ought to go far in helping those already handicapped by loss of sight and in beginning a campaign of prevention.

Another bill advocated by the Indiana Association of Workers for the Blind was one requiring all state institutions and officers to purchase articles produced under the supervision of the Board of Industrial Aid for the Blind. In the original bill, this applied to the products of the Indiana school for the Blind but was

changed later to keep it in harmony with the work of the proposed Board of Industrial Aid and both bills having become laws, they are supplements to each other. The products of the work which the new board promotes and conducts which suited to the needs of any state institution or political division, must be purchased by such institution or office unless it already itself manufactures or produces a similar product. The board will issue a printed descriptive catalogue of all articles produced by persons under its supervision. This act follows a previous law passed in 1905 which made similar provisions for the sale to state institutions and offices of articles manufactured at the Indiana Reformatory.

The third law in which the blind will be interested is a short one. It prohibits the impersonation of blind, deaf and dumb persons and others physically deficient for the purpose of obtaining money falsely, and provides that any one assuming any such impersonation, after having been held a reasonable time for identification shall, on conviction, be punished by a sojourn in jail for from one to six months or by a fine of from \$10 to \$200.

Tuberculosis

"Tuberculosis being hereby declared to be an infectious and communicable disease" this is the way the new Harmon tuberculosis law begins and it is not only the beginning but the whole heart of the law according to some people. With tuberculosis legally classed as an infectious disease the doctors who

have been longing and dreaming of quarantining tuberculosis and treating it as drastically as smallpox and diphtheria, begin to see their dreams come true. Under this law every care and attention that the law bestows on infectious diseases can be applied to the white plague.

Further under this law, specific provisions are made as to physicians' duties in regard to tuberculosis and as to the duties of owners and agents of rooms, or houses or apartments or premises occupied by tubercular persons and as to the duties of state and local health officers the names and addresses of all persons known by them to be infected with tuberculosis—this includes physicians who are chief officers of hospitals and institutes, and school physicians. The local officer reports in turn, to the State Board of Health where the information is tabulated and used as a basis for state wide investigation into the statue and ravages of the disease with the purpose of enlightening the public and arriving at the best methods of cure and prevention.

The local health officer must also ascertain the name of the owner or agent of the residence of any person reported to him as having tuberculosis, and notify him that the person occupying his premises has tuberculosis and that he must if the person dies, or moves away report that fact to the health officer, who must then thoroughly disinfect the premises before they can be re-occupied.

Here is the method and formula for disinfection after cases of tu-

berculosis as prescribed by the law:

"All windows, outside doors, and exist of such apartments, house, room, or premises shall be closed and all inside doors, closets, drawers and shelves of the aforesaid apartment, house, room or premises shall be open during the process of disinfection for a period of not less than two (2) hours and a separate vessel of the disinfectant hereinafter provided shall be exposed in each room and hall; in a temperature not lower than 50 degrees above fahrenheit and with atmospheric moisture of not less than 6 per cent. of saturation there shall be used 10 ounces of formaldehyde and 5 ounces of permanganate of potash per 1,000 cubic feet of room space; in a temperature not higher than 50 degrees Fahrenheit and with atmospheric moisture not exceeding 60 per cent of saturation there shall be used 20 ounces of formaldehyde and 10 ounces of permanganate of potash per 1,000 cubic feet of room space."

Violations of the act by physicians, health officers, or owner or agent will be penalized by a fine of from \$10 to \$50.

VOTE "DRY" FOR RUSHVILLE

The normal trade territory of the City of Rushville is Rush County including the smaller towns. This territory is 75 to 90% dry instead of 50% as claimed in the Wet advertisement. At the first County Local Option election Rush County was dry by practically 2100 majority. Over 1200 representative citizens of the County have signed a petition asking that **Rushville be kept dry this time.**

Carthage, Milroy, Manilla, Homer, Moscow, New Salem, Clarksburg, Fairview, Falmouth, Andersonville, Orange, Glenwood, Raleigh, Mays, Sexton, Arlington, Gwynneville, Morristown, all are dry.

Under a dry regime, our merchants have greatly prospered. The \$150,000 to \$175,000 that formerly went through the tills of saloons, now goes through the cash registers of the grocers, the dry goods men, the boot

and shoe stores, and all of the other legitimate business places. Ask them if business is not better. The dead beat list is practically eliminated in Rushville.

Rushville is a far better town in a business way now than the towns named in the "Wet Ads." There are no unemployed here, no soup houses, no bread lines, while Connersville, Shelbyville and Columbus have all had hard times and droves of idle men. Ask them.

The tax rate has increased in "wet" Shelbyville, Connersville and Brookville from 20 to 60 cents in the past two years. Mr. Voter, don't be deceived by the "last hour" statement of the "Indiana Brewers Association."

They pay men salaries to write "Wet Ads.," but they are not greatly concerned over the moral welfare of Rushville. They are after the Dollar and nothing else.

FAST TEAMS TO APPEAR HERE

With Indiana State League and Preliminary Games Fans Should Have Good Baseball

OUTLOOK IS VERY BRIGHT

Cambridge City and Becker's Team Will Play Around Circuit Before Season Starts

The schedule for the Rushville team for the month of May and before the Indiana State league season opens is as follows:

April 25.—Perkins-Campbell.
May 2.—Dayton Shilohs.
May 9.—Cambridge City.
May 16.—Hamilton Hoovens.
May 23.—Cincinnati Muldoons.
May 30.—open.

Before bringing the team here for the opener Manager Davidson will play Weihe's All-Pros at Cincinnati and the Hamilton Krebs at Hamilton. From the above schedule and with the games in the Indiana State league the fans here are assured some of the best baseball in the history of the city. The league season will open on June 6.

With a salary limit of \$65 for each team in the league the teams should be evenly matched and the league race be close from start to finish. Manager Davidson says the boys are "crazy" about the league and

will work their heads off to cop the pennant. A pennant winner for Rushville is none too good and the fans feel certain that the other teams in the league will know Rushville has been in the race.

The local directors will meet Sunday and talk over things pertaining to the club's interests. It takes money to finance a team and those who have not come across for their stock are urged to see the treasurer. Work on the grounds will start next week and from then on things will hum in the baseball world here.

The fans will be given an opportunity to see how the various league teams size up by the schedules that have been arranged. Cambridge City will play here May 9, at Connersville May 2, at Richmond May 16, and at Newcastle May 23. Becker's team will open here April 25 and play around the entire circuit. Becker will play at Connersville, May 9, at Newcastle May 16 and at Richmond May 30. In this manner the fans will get acquainted with the players and the relative strength of all teams can be obtained.

FIGHT POSTPONED.

(By United Press.)
Havana, Cuba, March 27.—The Johnson-Willard fight which had been set for Sunday, April 4, Easter, was today postponed to Monday, April 5 at the request of President Menocal o Cuba. After a delegation of clergymen had visited the president, he wrote the promoters offering to make Monday a legal holiday and asking postponement.

Rev. H. L. Phillippi, pastor of the Christian church in Milroy will deliver an address next Friday night at the school auditorium in New Salem, on the subject, "Around the World in Ten Steps."

WANTED TO BOOK FED TEAM HERE

John Spinney Desired to Place Pittsburgh Team Here For Four Games in April

GROUND NOT YET IN SHAPE

John Spinney, of Cincinnati, desired to book the Pittsburgh Federal league team here for four games starting April 1, but the offer had to be turned down because the grounds are not yet in shape. The offer was a good one for the local association but it would have been impossible to play the Feds here at this time.

Next season the association intends to bring some team here for spring training. This year Connersville, Richmond and Newcastle will have teams from the Southern Michigan league and there is no reason why Rushville should not get a team. Spinney in his conversation to the secretary of the local club stated that he was sorry Rushville could not take hold of the proposition as it would have meant real money to the club here.

GIVE DEGREE AT LIBERTY

The degree team of Bernice Encampment Number 12, I. O. O. F. of this city will go to Liberty this evening, where they will confer three degrees on several candidates tonight. Next Wednesday, a degree team from College Corner, O., will come here for work.

Hobson Found Out

The ridiculous Richmond P. Hobson declared on the floor of Congress that 6,000 people were dying daily in the United States from alcoholism. Henry Watterson looked up the books and found that the census figures showed that in 1912 only 3,183 people in the whole United States died of alcoholism. Where do these Prohis get their wonderful figures?

MANY NICKNAMES GIVEN FOR TEAM

Fans Working for Season Pass But More Names are Needed to Select From

SOME HAVE NOVEL IDEAS

Fans should not overlook the season pass offered for the best nickname for the Rushville team. Already names have been sent to the Sporting Editor of the Republican, but more are needed to make a selection. One fan would call the team "Rushers." Another has submitted the word "Sluggers" for a nickname and another fan has offered the name "Greenbacks" as a fitting term for the team.

The fan giving the name "Greenbacks" had an original idea even if he was not an Irishman. He suggested that the team to carry out the nickname have the backs of the players shirts in green material. Some loud effect, this green idea. Still another answer has been received. This fan would have the team called the "Ru-co-am-as." Little bungleome but his idea was that the word took into consideration the Rush County Amusement Association. More names are needed.

ORATORICAL AND TRACK MEET HERE

High School Events Will Take Place in Rushville May 8.—Thinly Clads at Fair Ground.

ARE ALREADY PRACTICING

The annual track and field meet of the Southeastern Indiana High School Athletic Association will be held at the fair grounds here on Saturday, May 8. The oratorical contest held in connection with the track meet will be held either on Friday evening or Saturday night, the exact time not having been determined. The track meet and oratorical contest was held at Shelbyville last year.

The schools represented in the association are Shelbyville, Rushville, Westport, Greenfield, Sheridan and Greenwood. The local athletes are busy getting in plenty of early training and the material, according to Coach Burns, looks better than in former years. Entries to the meet will close ten days before the event.

D. E. Roberts, piano tuner will be in Rushville next week. Leave orders at Abercrombies Jewelry store.

Given An Inch, Shoe Dealers Take All Feet By Storm With Creations

BY MARGARET MASON
(Written for United Press.)

Stunning Sara's short skirt shows Stockings sheer and sleezy. Also slippers smart of suede. Course they do, they're squeezey.

New York Mar. 26.—It boots you naught if you be not well shod. This Spring for the shoddily shod will not only need ashine but be one. What are the new short full skirts good for anyway if not to show tootsies smartly slipped and sheerly socked. Never has the running gear been in such bewilderingly brilliant condition as offered in the diverse footgear for 1915. Having been given an inch the shoe designers have taken all feet by storm with their many fascinating creations. The last fashions have become the first consideration of milady's spring wardrobe.

Because of the great popularity of the high laced boot this winter the low laced shoe or Oxford tie is being received with welcoming feet. In its most popular rejuvenated form it comes with a black patent kid vamp and upper of buckskin in all shades of grey tan, and brown. White uppers of buckskin with the black patent kid vamps are also extremely smart especially with the many all black and white costumes of stripes polka dots and checks. On all the new spring models the long slender English last in combination with the high Louis XV heel is noticeable.

In spite of the Oxfords return the pump still lingers in the good graces and on the graceful feet of the woman of fashion and it, also, like the Oxford is most popular in the combination of two colors, the black patent kid or bronze vamp and the colored buckskin top. Pumps and Oxfords in entire buckskin of grey, tan bronze or white are also very good and fine Russian leather shoes both high and low in the delicate shades of champagne, pearl grey and cream are to be much worn in one tone scheme or in combination with the black or darker shaded leathers.

All black patent kid slippers with two or three narrow straps over the instep are offered for wear with light tinted and white silk hosiery and the all bronze slipper with straps is also used successfully with the light toned stockings.

It is amazing with what tenacity the high shoe clings like ivy to the well rounded limb. It seems loath to give the low shoe a chance. They certainly come high figuratively and monetarily the most swagger of them, for they are made of the finest softest Russian leather in either white or champagne colors offset with tiny tips or black patent kid and a border of the same up each side of the lacing and around the top. We are bound to take more than one last look at these striking last fashions.

For evening and dance wear the plain satin slipper either strapped

or in simple pump form has the stamp of modish approval. It comes in all colors of satin and it is equally smart to match your slipper to your gown or to wear a contrasting shade.

Perhaps the newest and most unique of the evening slippers is a model with its upper of one shade and its vamp of a contrasting lighter tint braided in horizontal stripes with braid the same color as the darker upper. Evening slippers of brocade and metallic tissues are decidedly passe but beaded ones of bronze still toe the Fashion line.

Sport shoes of white buckskin with soles equally snowy of white felt or white rubber are extremely effective this year with trimmings and bandings of colored leather. Usually these colored trimmings are of mahogany colored or green leather but any colors are permissible.

Among the high sport shoes the one of white buckskin with a heel very low and flat of mahogany is the very sportiest.

Assuredly there is no excuse this year for putting your feet down unless you can put the best foot foremost. To the tasteful woman with good understanding that means getting there with both feet.

Relatives have received word here of the birth of a baby girl to the wife of John Gantner, Jr., of Omaha, Nebraska. Mr. Gantner formerly resided in this city.

"Prohibition Can't Be Enforced," Says Cardinal Gibbons

Makec Hypocrites, Leads to Illicit Whisky and Robs Government, Declares Cardinal.

"Prohibition will never be enforced in a Christian country," said James, Cardinal Gibbons, in a statement made public at New Orleans March 9, 1914. Cardinal Gibbons was paying his annual visit to his brother, John T. Gibbons of that city. "While I am an ardent advocate of temperance, I am intuitively persuaded that prohibition cannot be enforced in this country," continued Cardinal Gibbons. "It is calculated to make hypocrites and lead to the manufacture of illicit whisky, replacing the good material with the bad, while at the same time robbing the government of the legitimate tax."

CONFERENCE IS TO BE HELD HERE

Next County Meeting of Christian Churches at Rushville, it is Decided.

CLOSE AT ARLINGTON FRIDAY

New Officers Are Elected and Addresses of Interest to Members Heard.

The annual county conference of the eighteen Christian churches of Rush county, which closed at Arlington last night, was one of the most successful gatherings of the kind ever held. All of the churches were represented and there were many visitors in addition. At the closing session last night when C. W. Cumble, state secretary of the Indiana Missionary society of the Christian church, gave an illustrated lecture on the Christian church in Indiana, there were 350 persons present.

The next county conference will be held here in Rushville. The visitors were lavish in their praise of the members of the Arlington church for their fine hospitality. Both dinner and supper were served free of charge to the visitors in the basement of the church yesterday.

Will H. McMillin of the Plum Creek Christian church was re-elected president of the county organization. George C. Wyatt of this city was re-elected secretary-treasurer. Other officers elected were as follows:

Superintendents of divisions, Sunday school, Mrs. Marshall Heaton; C. W. B. M., Mrs. Roy Waggener of this city; Christian Endeavor, Lloyd Nelson of Milroy; religious education, John H. Frazee of this city.

The illustrated lecture last night gave an enlightening review of the accomplishments of the Christian church in Indiana. The Rev. C. F. Power of the Fairview Christian church led the devotional exercises last night.

The afternoon session closed yesterday with an address by the Rev. Garry L. Cook, state Sunday school superintendent of the church, on the subject, "The Efficient Sunday School Teacher." Mrs. Griest, state president of the C. W. B. M., spoke of the work of the organization yesterday afternoon at 2:30 o'clock. At two o'clock G. W. Cumble, state secretary of the Indiana Missionary society of the church, spoke on "The Every Member Canvass." The opening half hour of the afternoon session was devoted to business matters the morning session yesterday began at ten o'clock, the devotional being led by the Rev. W. D. Bartle, pastor of the Hannigan church. The morning gathering was devoted to the annual president's address, the report of the churches of the county by the corresponding secretary and the report of the county superintendents. From eleven to twelve there was the discussion of problems as follows: Sunday school, led by the Rev. Moody Edwards, pastor of the Little Flatrock Christian church; C. W. B. M., led by Mrs. J. D. Case of this city, a vice-president of the state organization; Christian Endeavor, led by the Rev. H. L. Phillippi, pastor of the Milroy church, and Missions, led by the Rev. C. M. Yocum, pastor of the Rushville church.

The opening session Thursday night consisted of devotional exercises by the Rev. D. L. Milligan, pastor of the Arlington church; address on the subject, "Our State Program Work," by G. I. Hoover, district evangelist, and one by G. L. Cook on the subject, "The Church as an Agency for Religious Education."

PASSENGER TRAIN LATE.

Passenger train number 34, north bound on the Big Four, due here at 11:02 this morning had not reached this city at three o'clock, owing to a wreck of a freight train near Brewersville, Ind., south of North Vernon. Freight service was also tied up on this division.

WAR HELPFUL TO INDIANA CONCERN

Shells That Are Bursting in Europe May Owe Being to Small Factory in Indianapolis.

LATHES TURNED OUT THERE

(By United Press.) Indianapolis, Mar. 27.—Shells that are bursting in Europe may owe their being to a small factory here in Indianapolis; it is probable that some sharpened shells being used by the allies was turned on lathes manufactured at the local factory of the International Machine and Tool Co., which has worked at full capacity 22 hours a day since the war began.

In the small building at Twenty-first street and the Belt railroad expensive lathes are turned out. These are shipped to other factories which manufacture shrapnel. No contracts have been made with any government the officials say. The lathes sell at from \$2,000 to \$2,500.

The shrapnel shell contains bullets or pieces of iron, and at a time fuse that causes it to explode over the desired object when properly timed. It was invented by General H. Schrapnel of the British army.

BATTERING FORTS AT A LONG RANGE

Allied Fleet Begins Systematic Attack and Will Not be Exposed to Forts' Fire

FOUR OR FIVE SHIPS A DAY

(By United Press.) London, March 27.—The super-dreadnaught Queen Elizabeth, supported by the battleships Triumph and Agamemnon and the cruiser Cornwall, has entered the Dardanelles and has begun a systematic battering of the Turkish forts at long range, according to Athens dispatches.

The Anglo-French fleet will not again expose itself to attack at close range, Athens cable. At a conference of fleet commanders it was determined to begin a methodical and incessant shelling of the Turkish defenses. From four to five warships will enter the straits each day. By pounding away in this fashion from day to day the fleet will keep the defenders busy and try to prevent the replacing of damaged guns.

Miss Pauline Patton, daughter of Mr. and Mrs. W. E. Patton of near New Salem, has sold a fine Shetland pony to James Hall, southwest of this city.

Rabbi Mendel Silber on Prohibition

"The advocates of prohibition are confounding cause and effect. While it is true that 'drink has often proved a curse' in this country, yet the evil lies not in the drinking, but in the conditions that make for drunkenness. The laxity of home ties and the lack of the proper home surroundings—two acknowledged failings of our masses—lie at the root of the evil. As long as the saloon will appear more attractive than the fireside, and a man's confederates more congenial than his conjugal companion the state of intemperance and immorality will exist. And even if the saloons be closed by law and the selling of liquor be prohibited by legislation the moral status of the people will not be improved. Hedged in by code, but hampered by conscience, man will find other and worse avenues of vice to gratify his unbridled desires."

OCTOGENARIAN IS DEAD WEST OF HERE

Funeral of John Addison, Who Died Near Gwynneville, Will be Held Sunday.

LEAVES MANY RELATIVES

The funeral services of John Addison, an octogenarian, who died at his home just northwest of Gwynneville at the age of eighty-three years Thursday evening, will be held at the Hargrove M. P. church, near the late home, Sunday morning. The cortege will leave home about nine o'clock. Burial will take place at Asbury cemetery, near Morristown. He has been in poor health for a long time and his death was expected.

Mr. Addison is survived by a widow, three daughters, three sons as follows: James T. and David, Hancock township, and Jasper, Hancock county; two half-sisters, Mrs. W. D. Keaton and Mrs. Mary Stevens, Rush county; one half-brother, John W. Addison, Rush county; one stepdaughter, Mrs. Ollie Anderson, Greenfield.

Mrs. E. C. Lee, who is quite ill with pneumonia, was reported as being improved today.

FARMERS FINISH SPRING PLOWING

Work at This Season is Farther Advanced Than is Usually the Case.

Acreage is Heavy

FREEZES MAY HURT WHEAT

Farm work in the vicinity of Rushville is farther advanced this spring than it has been at this time in the season for several years past. Several farmers have completed their spring plowing and some have begun harrowing the soil and placing it in condition for planting. Large numbers of farmers in various parts of the county have from 75 to 100 acres of corn ground al-

ready plowed. The acreage this year will be unusually heavy.

Until the last two or three weeks wheat had been looking fine. The freezes of the last few days, however, have damaged it somewhat in the opinion of a good many farmers.

"DOPE" FIEND ON TRAIN

Taken Through Here Today on Way to Madison Asylum.

A "dope" fiend who has felt the ill effects of the new federal "anti-dope" law was taken through here this morning on the Big Four south-bound passenger train, due at 8:03 o'clock, on the way to the insane hospital. He was strapped to a seat in the front part of the smoking compartment. He was a weird looking sight and was singing hymns in a loud voice.

Rev. Lyman Abbott

Editor of Outlook

on Prohibition

"It was not the method of Jesus. He lived in an age of total abstinence societies and did not join them. He emphasized the distinction between His methods and those of John the Baptist, that John came neither eating nor drinking; the Son of Man came eating and drinking. He condemned drunkenness, but never in a single instance lifted up His voice in condemnation of drinking. On the contrary, He commenced His public ministry by making wine in considerable quantity, and of fine quality, and this apparently only to add to the joyous festivities of a wedding."

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

Be as Particular

FIGHT FOR STATE PROHIBITION ON

Anti-Saloon League Announces it Will Make Effort to Get Bill Through Next Legislature

CAMPAIGN TO START AT ONCE

Organization in Every County to Elect "Dry" Men Contemplated, According to Announcement

Indianapolis, Ind., March 27.—In its first official statement since the adjournment of the state legislature, the Anti-Saloon league announces that it will begin at once a state-wide campaign for the passage of a prohibition law by the legislature two years hence.

It is understood that the League had no hope of passing a prohibition bill in the last legislature, and it introduced the same only as the opening move in their 2 years fight for the measure. Work has already begun toward perfecting citizenship organizations in every county in the state. These local organizations will be used to secure the nomination of "dry" men for the office of representative and senator in the next General Assembly.

It is announced that county organizations will be composed of men of all political parties who will seek to influence the nomination of "dry" men on all party tickets. It is pointed out that the new primary law will make it possible for "dry" men in every county to organize and to make themselves felt directly in choosing "dry" candidates for the legislature.

The League has already let it be known that a number of members in both houses of the last legislature belonging to the three political parties, are acceptable, and these men will be recommended for re-nomination and re-election.

As a part of the campaign, printed copies of the Wright prohibition bill will be circulated broadcast over the state. A chart has also been prepared showing how members in both branches of the recent legislature voted on temperance measures, which will be given widespread circulation.

That the League means business is indicated by the fact that it will undertake at once the raising of a campaign fund of \$100,000 to finance the fight through the next two years.

CONFERENCE FOR Y.M.C.A. EMPLOYEES

Will Discuss How to Reach Wage-Earning Boy and How to Teach Foreigners English

SWIMMING MEET TO BE HELD

(By United Press.)

Indianapolis, March 27.—How to reach the wage-earning boy, and the best method of teaching English to foreigners will be two main subjects discussed at the conference of all employed officers of the Y. M. C. A. in Muncie, April 14, 15 and 16. The conference was announced this afternoon at the state association headquarters here.

Shop meetings on a large scale will be discussed. Charles R. Towson, head of the industrial department of the international committee will be one of the main speakers. E. L. Shuey of Dayton, O., of the firm of Lowe Bros., paint makers will speak.

On the last night, will be held the state swimming meet. All meetings will be in the new Muncie building.

Is It Justifiable— Britain's Ban on Trade With Germany?

A grave complication which may have far-reaching consequences for this country and which is already costing much anxiety and money, has arisen through Britain's action in banning all neutral commerce to Germany. Every shade of public opinion regarding our duty at this juncture, which has no parallel in international law, is reflected in THE LITERARY DIGEST for March 27th.

Thoughtful Americans will do well to read the DIGEST very carefully this week. From no other source can the reader get such a complete knowledge of how this country stands on this question and what steps are favored.

What the Liquor Press Thinks of the Prohibition Wave

That there is a mighty flood of prohibition sentiment gaining volume in the United States is admitted by the attitude of the liquor press, which is accurately and vividly shown from every angle in this week's DIGEST.

But these are only two features. In addition, every subject uppermost in the public mind finds adequate and strictly non-partizan treatment by text, photograph, and cartoon in this foremost weekly news-magazine—Politics, Science, Invention, Religion, Literature, Art, Drama, Sports, receive the same attention as the absorbing news of the war.

It Saves Time and Money for Busy People

No other magazine is read so carefully and confidently. From the highest government officials, diplomatists, and statesmen, its circulation extends into every business, occupation, and profession in every country, embracing a million thoughtful readers weekly. And this impressive clientele is increasing rapidly. It is high time you became acquainted with THE LITERARY DIGEST if you have not already done so.

This week's number will give you a clear idea of its unique service to busy people.

NOTE—In many places the news-dealer is selling out his DIGEST supply so quickly that many readers are often disappointed in failing to get their copy. Give your news-dealer a standing order for THE LITERARY DIGEST and you will always be sure of getting yours.

FUNK & WAGNALLS COMPANY (Publishers of the Famous NEW Standard Dictionary), NEW YORK

OVER A MILLION CARED FOR DAILY

Belgian-American Relief Commission is Doing Wonderful Work in Stricken Country.

ORGANIZATION PERFECTED

Over 50,000 Volunteers Are Now Enrolled in Distribution of Food and Clothing.

(By United Press.)

Brussels, Belgium, March 12. (By Mail to New York.)—One million four thousand people, who are absolutely destitute of any other resource, are now being cared for daily in Belgium by the Belgian-American Relief Commission.

This organization has been perfected in all parts of the country. Over 50,000 volunteers are now enrolled in the work of distributing relief and bureaus have been established in all of the principal cities and towns.

One of the first tasks of the Central Bureau has been the securing of accurate figures of the manner in which the Belgian population has been dispersed by the war. On the first of last August the little kingdom had a population of 7,700,000. Of those who fled before the Ger-

man advance and occupation 110,000 found refuge in England, 350,000 in Holland, and 50,000 in France. Still others scattered in different countries bring the total number that fled and that is still residing out of the homeland up to 700,000.

The province of Liege is the one in which destitution is greater than any other. It suffered the severest of all the Belgian provinces. A total of 300,000 are being cared for there by the relief commission. In the province of Hainaut there are 150,000 helpless.

In this province of the rations allowed by the German administration to the population is limited to 125 grammes of bread a day. The rations of the German soldier is 750 grammes. At Antwerp as a special favor an increase has been made to 250 grammes a day for the population.

Try a WANT AD

COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsed coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsed coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

BEING WOUNDED GRUESOME THING

To be Hit Feels Like Being Punched So Many Soldiers in the Trenches Says.

RELIEF METHODS EXPLAINED

Often Soldier is Shot While Being Carried to Safety on Shoulders of Comrade.

BY PHIL RADER. (Written for United Press.)

(Copyright 1915 by United Press.) London, March 1.—Being wounded in our trenches was gruesome business. If a wounded man dropped back to safety he was extra lucky, for everything that was done for him during the first few hours only tested his waning strength and was likely to make his condition worse.

Often a man would not know he was wounded for some time. One chap came limping up to the trench one day complaining that he had been shot in the leg. He could hardly put his right foot to the ground. He ripped open his trouser leg and could find no bullet mark. Then we discovered that he had been shot through the forearm and that the wound was hours old.

To be hit feels like being punched, so many soldiers have told me. When a man sank in our trenches the fellows who were not busy usually gathered around him while some one ran two miles through the trenches to get a Red Cross man. Within half an hour the Red Cross man would come. If the wound was not bad the man would remain in the trenches, after the doctor had soaked it in iodine, which burns like fire. If the wound was serious the doctor would do the best he could in the way of dressing it and then one of us, or perhaps two would be detailed to take the unlucky man back to safety. He had to be carried through two miles of trenches. It was impossible to use a stretcher swing owing to the sharp turnings, and, if you carried a man on your back, you

WANTED AT ONCE! 20,000 People to Walk On this Rug

We Want to Make This the Most Severe Test Possible for a Floor Covering We Hope it Rains and Snows and Freezes

We will not take this rug in on account of bad weather. We want you to track on all the dirt and grit you can, test it to your own satisfaction—that is what it is out there for. A rug can not be tested properly unless it is given a fair chance. This rug will be out on the walk early in the morning and late at night. Men and women going to and from work early or late will be requested to walk over it.

We Positively Guarantee

that this rug was taken from our regular stock and was not specially made for this demonstration. You can always buy one just like it here anytime.

The Sidewalk Test—What it Means to You

This sidewalk test is made for your benefit, for the benefit of every housewife who wants to know just what she is buying. THE SIDEWALK TEST PROVES THE WORTH OF WHITALL RUGS. Seeing is believing. It allows the people of this community to see for themselves just what abuse these Whitall Rugs will stand.

had to be careful at many places to keep his head down below the trench walls as well as your own. One of our fellows who had been wounded in the leg and was being carried on the back of a comrade, was shot through the head and killed one day at one of the many dangerous turnings in our trench system.

After this two mile trench journey was ended, the man had to be carried along a pathway down a 200 foot cliff. Here he was safe from bullets or shells but a warm clean, hospital bed was still millions of miles distant. Here he would be taken into a peasant's house where the first-aid men were on duty. There would be nothing but straw for him to lie upon. The first-aid men would dash cold water on to his face, wash his wounds and bind them as best they could. Then the wounded man would lie on the straw until nightfall, for it was necessary to carry him through a firing zone to get back to the infirmary, which was another little house in a town a mile distant. He would either be wheeled along the tow-path of the canal on a stretcher made of two baby carriages, which were connected by a board or "Charon" would carry him in an old boat. Charon was an old French peasant with long white whiskers. His boat was floored with straw and because he carried only the most gravely wounded men, who often died during the mile journey down the canal, we used to call him "Charon" and we named the canal the Styx.

At the infirmary there were real surgeons, but they were pressed with work, and they were forced, of necessity, to perform their operations hastily, in an improvised operation room.

If the wounded man were still alive by this time, he would be put

State of Ohio, City of Toledo, ss. Lucas County. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE. FRANK J. CHENEY. Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

into a Red Cross wagon or automobile, or some other sort of a vehicle and carried 30 miles to a large town (which I cannot for obvious reasons name) and here he would be put on the next Red Cross train and started for Paris. His bed in the train might be a seat in a third, second or first class coach; or, if he was lucky, it might be a sheeted bed in a regular Red Cross car.

At last his train will pull into Paris or into some other distant city of France where there are big hospitals. Scores of ambulances will be waiting in the railroad yards. The ambulance attendants will be running around, each seeking out the wounded who are to be assigned to the hospital which he represents. To them he is only a number, or perhaps a chalk mark on the door of the car. They will put him on a stretcher, place him in a huge motor ambulance, perhaps with one or two other men who have been injured on distant battlefields and the car will race through the streets of the city to the hospital which once seemed to the sufferer so many miles away, and where warm white beds, gentle nurses, flowers and no responsibility await him. It is no wonder that the wounded men who reach the hospital wards sink back onto the pillows with sighs of relief and smile when they catch the first glimpse of the white nurses. Look back at the journey he has taken since that moment he was hit in the trenches and you can understand how a hospital ward looks like heaven to a wounded soldier.

To get into a hospital is one of a soldier's dreams and there are strict laws in all armies against men wounding themselves. In the French way this self-wounded is known as "mutilation" and the punishment is death. In our regiment an ex-convict who had been released after serving fifteen years in order to permit him to enter the army, persuaded another soldier to shoot him through the hand. In return for the favor he also punctured the hand of the soldier. When they came to have their wounds dressed the doctors noticed powder marks on their mangled hands and arms and the truth came out. Both men were executed.

If you are troubled with Rough skin remember "Raymond Chap." 312418.

Equipment of the Ohio Standard Suction Sweeper

The Motor—Especially designed for the OHIO-STANDARD, consuming a minimum of current and costing less than one cent per hour to operate.

The Floor Sweeper—12 inches wide, with friction brush, freshening the carpets without injury or wear. The powerful suction gathers all the dust and dirt the first time the sweeper is run over the surface.

Capp Plumbing & Electric Company

The Dust Bag—A single twist of the thumb detaches the dust bag; it is emptied in a moment without raising a particle of dust, and no germs escape back into the room.

The Switch—Firmly imbedded in the motor dome, safe and secure from accident and almost automatically operated from the handle.

Guarantee—The OHIO-STANDARD is sold under an absolute guarantee which is sent with every sweeper, freeing the purchaser from any risk, and insuring constant, satisfactory, safe and sanitary service for years to come.

We Have Our Spring Buggies In!

and they are ready for your inspection and we extend you an invitation to call and look them over this week as it will be to your interest to make your selection between now and the closing day of our Opening. We will explain why when you come in. We have the finest buggies ever placed on a sample floor and we want you to look them over. If you need a Storm Buggy this is the correct place to get what you want. We are not selling them at a reduction of \$25.00, however, but we are selling them just the same as we have all season at \$100.00. We have always said that our price was just as low at any time as the cut prices of our competitors, and we are always ready to do as we advertise. When a merchant advertises he has made a cut of \$25.00 on a buggy use a little common sense in forming an opinion about this like the fellow that was in a state of coma, and his friends thought he was dead, but before time to bury him he showed signs of life. When he rallied enough to talk his friends asked him how it seemed to be dead. "Dead," he exclaimed, "I knew all the time what was going on and I knew I wasn't dead, too, because my feet were cold and I was hungry and I knew that if I was in heaven I wouldn't be hungry and if I was in the other place my feet wouldn't be cold. Now if you will study out 99 per cent of the cut price argument you will see just about as much to them as there is in this little story. In other words, somebody has to be the goat, and the man that takes \$25.00 off of a buggy during a sale must have a lot on when he is selling regular. Buy your buggies where the price is always the same and as low as any cut price sale ever advertised in Rush County. Let the other fellow be the goat this time.

IF KIDNEYS ACT
BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

With The Churches

Regular services at St. Mary's Catholic church, conducted by the Rev. M. W. Lyons. Masses at 8:00 and 10:00 a. m. Vespers at 3:00 p. m.

Christian Science services every Sunday at 10:45 a. m. and Wednesday at 7:45 p. m., at northwest corner Fourth and Harrison streets.

There will be preaching every Sunday at the Glenwood M. E. church. Morning services at 10:30 o'clock, evening services at 7 o'clock and Sunday school at 9:30 o'clock.

St. Paul's Methodist Episcopal church, A. D. Batchelor minister. Sunday school 9:15 a. m. After the study hour E. B. Thomas will address the school on "Decision." The pastor will preach a Palm Sunday sermon in the morning. There will be no evening services in view of the union temperance meeting at the Christian church. Wednesday 2:30 p. m., the Ladies Aid Society will meet with Mrs. Lon Havens, in North Main street; assistants to the hostess, Mrs. Will Havens and Mrs. George Havens. The meeting is called for Wednesday instead of Tuesday on account of election day. Thursday 7:30 p. m. the midweek meeting for prayer and Bible study. The pastor will lead the meeting.

First Presbyterian church, 9:15 a. m. Bible school, B. O. Simpson, superintendent; 10:30 a. m. Divine worship, Palm Sunday services. Special music. Sermon, "The Royal Christ." 2:00 p. m., women's meeting to be addressed by Mrs. Stanley. 2:30 p. m. junior society. No evening service. Thursday evening, prayer meeting.

"Two Great Commandments" will be the subject of the Rev. S. G. Huntington at the First Baptist church Sunday morning. Other services as usual except the night meeting when a union service will be held.

Observance of the Lord's Supper will take place Sunday morning at the United Presbyterian church and the sermon by the pastor, the Rev. A. W. Jamieson will be keeping with this. There will be no evening service on account of the union meeting.

Elder W. A. Christian of Springfield, Ill., will preach at the Primitive Baptist church Saturday night, Sunday morning and Sunday night.

At the Main Street Christian Church, Sunday night, four of the ministers will make short addresses. The Rev. D. Ira Lambert will speak on the liquor dealer's pet phrase, "Personal Liberty" and show the fallacy contained in the wodos. The Rev. A. D. Batchelor will have for his subject, "The Basis of Modern Temperance Agitation." The Rev. S. G. Huntington will discuss the "Responsibility of the Voter." The Rev. C. M. Yocum will handle "The Local Issue Before Us." It is hoped to make this the most enthusiastic meeting of the campaign. Let the members of all the churches be present.

Delicious brown cakes made from Mrs. Austin's Bag Pancake Flour. All grocers.

BRISCOE

\$785

Including electric self-starter, electric lights, generator, one-man mohair top and boot, wood or wire wheels, speedometer, high-tension magneto, windshield, etc.

This French Car Has No Competitor

There are plenty of people satisfied with ordinary, cheap, unattractive cars, hastily built and hurriedly bought.

Others, with no more money to invest, want a really high-grade light car. The Briscoe Car appeals to these discriminating purchasers, because it is built of the finest material, with the greatest care in workmanship—a car of assured reliability and of highly finished, artistic appearance.

The manufacturers intended that the Briscoe Car should satisfy discriminating buyers by years of service and by a quality of service beyond their expectations.

The Briscoe Car was first built in the Briscoe experimental shops at Billancourt, near Paris. The leading French engineers collaborated in producing it. It is the finished product of three years' careful investigation and study on the part of

Americans who have had fifteen years' experience in building American cars. The Briscoe has been tried and proved under every conceivable practical test, both abroad and at home.

Arrange for a demonstration to-day. In demonstrating the new Briscoe Car we want to put it through the severest tests you can suggest. We want you to see its smooth propulsion at all speeds, under all conditions of control, on all sorts of roads and hills. You will quickly realize that you are riding in a different kind of car than you expected for this price. You will begin to understand the genius of French engineering, and you will no longer wonder why French automobiles were able to sweep everything before them at the recent Indianapolis races.

Come in to-day, or phone us for a demonstration.

Note carefully the following features, boasted of in cars costing \$1100 to \$1400.

You would demand them if you were paying \$1500 or \$2500. The BRISCOE has them—without additional charge:

- | | | | |
|---|--|--------------------------------------|---|
| French Chassis | Electric horn button on steering wheel | Home comfort seats | High-tension magneto |
| French Line body designed by Carrousserie Internationale, Paris | Ajax Tires (Guaranteed 5,000 miles) | Left hand drive | All bearings bronze lined with Babbitt (not found in other cars under \$2000) |
| 107 inch wheel base | Flush instrument board carrying carburetor adjustment, speedometer, oil gauge and electric gauge | Chrome Vanadium steel | Motor, Bloc, L.-head type |
| Sunken center headlight | Light weight, 1800 lbs. | One-man Mohair top and boot | Long-stroke, high-speed motor |
| Electric lights | Three-point suspension | Parisian curtains | Cylinders 3 1-8 x 5 1-8 |
| Silent electric starter | Luxurious upholstery | Gasoline tank under cowl | Transmission unit with motor |
| Wire wheels (wood optional) | | Paint—Highest quality Brewster Green | Speedometer on transmission shaft |
| Full-floating rear axle | | Extra long, new alloy steel springs | |
| Continental type front axle | | Safety-first brakes | |

A LIVE DEALER WANTED IN PART OF RUSH COUNTY.

LOSERS ARE TO
TO BE REIMBURSED

State of Indiana Will Soon Begin Distribution of \$100,000 to Pay Farmers

FOR THEIR CATTLE KILLED

The state of Indiana will soon begin the distribution of approximately \$100,000 among stock raisers of nineteen counties who suffered losses because of the foot and mouth disease. The vouchers for the amounts due are being prepared by Dr. A. F. Nelson state veterinarian, and the warrants, to be cashed by the treasurer of state, will be issued by the state auditor. It is expected that the payment of the money, provided by a legislative appropriation, will be made within the next two weeks.

In the fight to stop the spread of the foot and mouth disease which for a time threatened to destroy the live stock industry of the state and country it was decided by the Federal authorities that all diseased herds should be killed and buried. The Federal government agreed to pay half the cost with the understanding that the remaining amount was to be paid by the state. The Federal government has made its payment to the Indiana farmers and assurance now is given that the state soon will be prepared to meet its share of the obligation.

LET'S GET TOGETHER ON THIS SILO SITUATION

I want to talk to every farmer around here who is planning on building a Silo this year. I can help you choose the kind of a Silo you need to feed your stock. According to my way of thinking, there is just one real silo made—and that's the **SAGINAW SAGINAW SILOS** are Steel-built. They stand up against wind storms. They are air tight. They give sweet, clean succulent silage all the way through. A **SAGINAW SILO** will bring you more profit on the farm.

By all means let me tell you about the **SAGINAW SILO** before you decide on a Silo. Let's get together.

GIVES HISTORY OF CATHEDRALS

Mrs. Demarchus C. Brown, in Illustrated Lecture, Shows Development of Architecture.

ON THE BRITISH ISLES

Pictures of Famous Old Cathedrals

Are Shown and Style Followed

is Explained.

In her next to the last lecture of the series last night at the Graham school assembly room, Mrs. Demarchus C. Brown of Indianapolis spoke of the English cathedrals, explaining their origin and architectural development. The lecture was illustrated.

Mrs. Brown, said there were thirty great cathedrals on the British Isles. They were developed, she said, between the coming of William of Normandy and of Queen Elizabeth, during which time five centuries elapsed.

"In it all," Mrs. Brown declared, "we see the church as the center of life. There were no warring or jarring creed and everyone thought the church was his salvation. It was the religious spirit that built the wonderful churches.

"In those days there were the old craft guilds which were really the foundation for the present-day labor unions. They were groups of working men who bound themselves together for mutual benefit. They were a power that any ruler had to reckon with. Often they ruled communities. They might be in any trade. The guilds held up a fine ideal of craftsmanship, which is responsible for the beautiful churches. There was no distinction of craft. The painter and the sculptor ranked alongside with the baker, mason and reaper in the fields, and they were all classed as workers.

"The great buildings were expressions in stone and color of the men of the day along the lines of their feeling of beauty. It was their religion—something that has always been inspiring."

With the brief introduction Mrs. Brown then showed a series of pictures depicting many of the famous old cathedrals of Britain. She showed the picture of St. Martin's chapel, which was reputed to be the first ever erected on the Isle. Although built many centuries ago, it still stands.

Mr. Brown showed a picture of Barfsten, an old Norman church which was erected when the Normans had overrun England and which brought out the French style of architecture. There was also a picture of St. Joseph's chapel which dared to dispute with St. Martin's chapel the right to being the first ever built on the Isles.

Mrs. Brown explained the origin of the buttress which developed from the gradual spreading out of the base of the wall wherever there was a door or arch. Mr. Brown also showed many churches to reveal how the famous Norman arches predominated in all of the religious structures of the British Isles. The Norman arches were first rounding and later developed into pointed arches which were in a large measure the only sort of decorative designs used.

Mrs. Brown showed many pictures of old abbeys and monasteries and told something of their origin and history. She told something of the humor in Gothic architecture, which was often seen in the gargoyles, which were water spouts, often carved from stone grotesquely, that projected from the upper part of the building, often from the roof gutter. Mrs. Brown showed pictures of these gargoyles, declaring that it was doubtful if two alike were ever made.

Before the lecture, J. H. Scholl explained that there was a surplus in the treasury of the class of something like fifty dollars. He asked what the members of the class wanted to do with it. It was finally moved and seconded that a committee be appointed by the chairman, of which he should be a member, to

decide what disposition should be made of the fund, and members of the class were invited to make suggestions to the committee.

PLEADS FOR HELP FOR POOR "FRIENDS"

Dr. J. Q. Spradlin Says Average

Used of "Dope" Can be Cured

in Few Weeks Time.

WILL DIE UNLESS RELIEVED

(By United Press.)

Dallas, Texas, March 27.—"The wealthy victim can obtain relief by paying for treatment, but the thousands of the indigent must go on suffering and dying unless relieved," said Dr. J. Q. Spradlin, calling upon state and local authorities to act in the emergency created by the enforcement of the Harrison federal anti-dope law.

Calling the law one of the greatest blessings the country has ever known Dr. Spradlin at the same time said a mistake was made in not providing treatment and relief for the unfortunate suddenly cut off from their "dope."

"In a few weeks time most of them could be cured," he said.

That thousands are addicted to the drug habit and do not know it was the startling statement by Dr. Spradlin.

"They have been having filled and refilled year in and year out," he said, "some prescription which has been found to afford relief from bodily suffering, and the physician who issued it is not aware they are still doing the prescription. Druggists fill these prescriptions, not feeling that it is incumbent upon them to ask questions."

Notice of Insolvency.

In the Matter of the Estate of Gates Sexton, Deceased.

Notice is hereby given that upon petition filed in said Court by the administrator of said estate, setting up the insufficiency of the estate of said decedent to pay the debts and liabilities thereof, the Judge of said Court did, on the 19th day of February 1915, find said estate to be probably insolvent, and ordered the same to be settled accordingly. The creditors of said estate are therefore hereby notified of such insolvency and required to file their claims against said estate for allowance.

Witness, the Clerk and seal of said Court at Rushville, Indiana, this 19th day of February, 1915.

Seal) **ARIE M. TAYLOR**, Clerk.

BOARD ASKS FOR NEW INFIRMARY

Commissioners Today Request Appropriation of \$30,000 be Made by County Council.

TO BUILD A POOR ASYLUM

Definite Decision is Reached After Muncie Fire in Which 13 Lost Lives.

The county council, at the special meeting today, was asked to appropriate \$30,000 for a new building at the county poor farm by the board of commissioners. The council was not expected to act on the proposition until late today, but it is believed that steps will be taken to get a new modern building at the poor farm. The largest amount the council can appropriate in a single day is \$15,000.

The council adjourned this afternoon without taking any definite action. In the meantime, it was stated, the council will have Secretary Butler of the state board of charities here and go over the ground thoroughly. No action may be expected for three or four weeks, it is said.

The council was called to make some deficiency appropriations amounting to \$700 on two bridges that were recently completed. The board of commissioners appeared before the council and submitted the proposition asking for an appropriation not to exceed \$30,000 for the new building.

The commissioners have figured on a new building there for a long time and definite action was decided on this week following the fire at Muncie in which thirteen people of the county asylum lost their lives. The state board of charities has recommended a new building for the inmates at the poor farm here for the last ten years and it has reached a stage where something will have to be done. The state board recommended that the residence of the superintendent be left as it is but that a new building, modern through out be erected for the inmates and the appropriation of \$30,000 asked for by the commissioners would provide a building of this kind.

Plans in the hands of the state board of charities were gone over carefully by the board of commissioners and then they got in communication with architects, who had superintended the construction of similar buildings in other counties, regarding the cost. The commissioners also wrote to the county auditors of other counties regarding the cost and it was decided that a building could not be erected under \$30,000.

Edson Aiken, commissioner from northern district, stated this afternoon that he believed the council agreed that a new building should be erected and that the only discussion was over the amount it should cost. The county council paid a

TODAY'S ODDEST STORY.

(By United Press.)
St. Paul, Minn., March 27.—Ray Temple of Morristown, Minn., a college student, is living on rations which, he declares, cost just 10 cents a day. On such limited fare he has gained 40 pounds, and incidentally regained his health in five months. Temple's economy is not caused by financial worries, as he is not working his way through college, but merely to restore his physical vigor.

SELLS FARM FOR \$15,000

A. P. Walker Place Goes to Alexander Johnson of Shoals.

Alexander Johnson, of Shoals, Ind., has purchased the Jersey Isle Stock farm from A. P. Walker. The deed on file in the recorder's office shows a consideration of \$15,000, which is a record sale in Rush county for recent years. The Jersey Isle stock farm consists of 30 acres making the sale average \$500 an acre. The transaction included all the equipments on the farm, which is considered among the most modern in the state. It is not known when Mr. Johnson will take possession.

JURY OUT 5 HOURS AND IS DISCHARGED

Fails to Reach Verdict in Case of State Against Casey, on Statutory Offense.

VOTE REPORTED WAS 9 TO 3

The jury which tried Newton Casey on a statutory offense was unable to agree on a verdict and was discharged by Judge Sparks shortly after five o'clock Friday evening. The jury was out about five hours and reported to the court that there was no possible chance of reaching a verdict. It is understood that the jury stood nine to three in favor of an acquittal.

According to one of the jurors, a large number of ballots were taken and the result remained the same. The jury was hopelessly unable to agree and rather than hold them any longer Judge Sparks called the men in and discharged them.

Attorneys for Casey were elated at the disagreement as they considered it as good as a verdict in their favor. It is not known when the case will be tried again, but is not likely to come up this term of court.

COURT BUSY WITH CIVIL CASES TODAY

Finds For Plaintiff in Smith-Stern Suit and Modifies Crim Divorce Decree.

SUIT ON NOTES DISMISSED

The circuit court was again busy today with civil matters after having been occupied with a criminal case since Wednesday. Judge Sparks returned his finding in the case of Walter E. and Edith B. Smith against Joseph Stern on a contract, demanding \$300. The court found for the plaintiffs in the sum of \$70 and costs. The case involved the rental of the Smith room in West Second street, it being alleged that Stern moved from the room before his contract expired. The case was heard some time ago and taken under advisement.

The court modified the divorce decree for Jess Crim, and instead of paying a stated sum to Mary Crim Fair, he will be released from any further payments upon paying her \$50. The court decided that she should continue to have the custody of their child.

The case of Donald L. Smith against Dora and Ollie F. Guffin on notes and to foreclose a vendor's lien, demanding \$1,850, was dismissed by the plaintiff and the costs paid.

POVERTY THEORY IS SCOUTED HERE

Relatives of C. F. Dale Who Shot Wife and Killed Himself Say He Wasn't in Need.

OWNED HIS OWN PROPERTY

Former Rushville Man Leaves Note Before he and Wife Carry Out Suicide Pact.

What is believed to have been a death pact was entered into between Charles F. Dale, formerly of this city, and his wife at Los Angeles, Cal., yesterday afternoon. The couple apparently made carefully considered plans and went to a lonely hillside near Avenue Thirty-three and Griffin avenue, which was close to their home at 5552 Camerford avenue and there, one or the other, presumably Mr. Dale, fired a shot into the other's brain, and then killed himself.

Mr. Dale was a son of Mr. and Mrs. E. O. Dale and a brother of O. M. Dale of this city. The relatives here were greatly shocked when they read of the tragedy in the morning newspapers. Mrs. Tom J. Geraghty, of New York City is the only child of Mr. Dale. The woman he killed was his third wife.

Powder marks on his temple indicated that Mr. Dale had first killed his wife and then shot himself. He was dead when found and Mrs. Dale was rushed to a hospital, where there was little hope maintained for her recovery.

Relatives here are at a loss to account for the tragedy and do not believe stories sent out from Los Angeles that the deed was committed rather than fight poverty. The local relatives state that if he had been in need he could have secured aid from here and they believe there was something else back of the affair. It is stated that Mr. Dale owned his own property and that unless some misfortune overtook him within the last few weeks he was in no danger of facing poverty.

His father here is eighty-six years old and recently Mr. and Mrs. Dale celebrated their sixtieth wedding anniversary. Local relatives attempted to get word from Los Angeles this forenoon but were unsuccessful. No word was received last night by either the father or the brother and so far no word has been received from Mrs. Geraghty in New York as to whether she received word of her father's death.

Mr. Dale is well remembered here although he had been away from Rushville for the last fifteen years. When he left this city, he located in Cincinnati and then went west from there. Mr. Dale left the following note:

"Wire my father, E. O. Dale, Rushville, Ind., and my daughter, Mrs. Ethel Geraghty, Bayside, L. I. Also wire wife's sister, Mrs. Pearl Stafford, Frankfort, Ky. Answer all inquiries by letter, if at all. It is cheaper and, besides, there is no hurry. We will be a long time dead."

"P. S.—Some one of our relatives or friends please scatter our ashes to the four winds from Mt. Holywood or Mt. Lookout."

WAS FROM BOX 36.

Another false alarm was turned in from box 36 corner of Second and Washington streets last night. The alarm was sounded at ten-thirty o'clock. This is the box that has caused the fire department more or less trouble for some time and the key of the box may be placed in the residence of some one near there.

FIRST MEETING IN TENT HELD

Emerson Ballard of Crawfordsville Addresses Farmers on Foundry Lot This Afternoon.

SPEAKS AGAIN TONIGHT

Places For Women's Prayer Meetings Monday Afternoon Are Announced Today.

The tent was erected on the foundry lot and fitted with seats and a stage and the ground covered with sawdust in time this afternoon for the farmers "dry" meeting which began at two o'clock and which was addressed by Emerson Ballard of Crawfordsville.

Mr. Ballard will speak on the temperance question again at seven o'clock this evening and following the address a picture show, "Ten Nights in a Bar Room," will be shown. Special music will be provided.

With warm afternoon sun shining down on it, the tent was said to be very comfortable for the audience this afternoon. Salamanders were to be lighted directly after the afternoon meeting to heat the tent for the night meeting. It was pointed out that the tent was much warmer than the coliseum because the sides were tied down and every precaution was taken to keep out the cold air.

This afternoon's meeting was the beginning of the last lap of the "dry" campaign. Tomorrow three meetings will be held at the tent, at 9:15 a. m.; 2 p. m. and 7 p. m. Col. D. M. Perry, cattle auctioneer and celebrated temperance advocate of Columbus, O., will speak to men at all of these meetings. Sunday morning the men's adult Bible classes of the city will march to the tent. In addition a women's meeting will be held Sunday afternoon at two o'clock at the First Presbyterian church, to be addressed by Mrs. Elizabeth Stanley, and a mass meeting will take place at the Main Street Christian church at night at seven o'clock, to be addressed by four ministers of the city.

Prayer meetings for Monday afternoon at 3 o'clock will be as follows:

Mrs. J. F. Gillespie, 1026 N. Maple St., leader, Mrs. Ed Billings; Mrs. Carl Webb, 1028 N. Perkins, leader, Mrs. Wm. Alexander; Second Methodist Parsonage, E. Eighth, leader, Mary Fisher and Mrs. Wm. J. Waite; Mrs. Allen Holden, 210 E. Seventh, leader, Mrs. Lowell M. Green; Miss Sadie Williams, 425 N. Perkins, leader, Sadie Williams; Mrs. F. G. Hackleman, 515 N. Morgan, leader, Mrs. J. R. Carmichael; Mrs. James E. Watson, 805 N. Main; Mrs. H. H. Elliott, 838 N. Harrison, leader, Mrs. Harriett Abbott; Mrs. Wilson Stewart, 811 W. Tenth, leader Mrs. Steve Boyer; Mrs. Ruby Petry, 631 N. Sexton; Mrs. A. P. Wagoner, 830 N. Jackson, leader, Edna George; Mrs. Link Guffin, 501 N. Harrison, Mrs. V. W. Tevis, 315 N. Harrison, leader, Dr. V. W. Tevis; Mrs. S. J. Finney, 122 W. Third, leader Dr. A. W. Jamieson; Mrs. Atwell Boling, 319 N. Hannah, leader Mrs. Mary Holmes and Mrs. Homer Cole; At the church, Pearl & Water, leader, Mrs. A. W. Jamieson and Rev. C. M. Yocum.

BOMB UNDER MAYOR'S HOUSE.

(By United Press.)
Dennison, Ohio, March 27.—Mayor W. A. Pittenger's home was partially destroyed by a dynamite bomb early today. The mayor and his family escaped injury. He has been warring on "bootleggers." The bomb was placed under the mayor's bedroom.

SIXTY-ONE TAKE EXAM

Test For Teachers' License is Held Today.

A total of sixty-one took the examination for teachers' licenses today at the examination room in the court house. This is the third examination of the year and the number, according to Superintendent C. M. George, holds up remarkably well. The number today was about the same as took the examination for the corresponding month last year. The largest number that ever took the examination was last month when seventy-eight applied for licenses to teach.

EASTHAVEN BARN BURNS DOWN TODAY

J. L. Cowing, Member of Asylum Board, Receives Word of Fire There Early Today

HAY AND GRAIN ALL SAVED

J. L. Cowing, a member of the board of trustees of Easthaven insane hospital at Richmond, was notified by the superintendent this morning that fire destroyed the large barn at the asylum about one o'clock this morning. The origin of the fire was a mystery. Two attendants who were sleeping in the office on the second floor of the barn leaped to safety because the structure was a mass of flames when the fire was discovered. One of the men was severely bruised by jumping from the second story.

The barn was valued at eight thousand dollars. The building was insured for \$5,000 and the contents for \$1,500. The fire brigade at the asylum was able to save all of the contents except the hay and grain. Horses and vehicles were taken out in time.

Mr. Cowing will attend a meeting of the board the first of next week when it will be decided what arrangements shall be made to house the things saved from the fire.

WORK OF RAISING SUBMARINE STARTS

F-4 Located and Some Navy Officials Are Still Hopeful of Rescuing Crew Alive

A FLEET IS READY TO HELP

(By United Press.)
Honolulu, March 27.—The dredge California arrived from the Pearl harbor naval station today and the actual work of raising the submarine F-4 was begun.

The California's powerful derricks and cranes are expected to bring the submerged vessel to the surface by tonight.

Some navy officials were still hopeful that some men of the 2 men entombed in the F-4 may yet be rescued alive. A fleet of vessels including the submarine flotilla are ready to render every assistance.

The submarine was located late yesterday afternoon 300 feet below surface of the water.

Rev. H. L. Phillippi of Milroy was in this city this morning, returning home, after attending the Christian Conference in Arlington.

GOVERNMENT RESTS TODAY

Defense in Terre Haute Conspiracy Trial Begins Introduction of Evidence.

MONTGOMERY ON THE STAND

Says he Worked on Voting Machines "to Protect Them Against Routh Usage."

(By United Press.)

Indianapolis, Ind., March 27.—The government rested its evidence in chief in the Terre Haute election corruption conspiracy trial at 10:20 a. m. today.

The government had heard 318 witnesses, consuming three weeks time.

"I am absolutely satisfied with the showing of the government," said District Attorney Dailey, after leaving the court room. "The proof could not have been stronger."

After a brief recess, Judge A. B. Anderson asked all in the court room who would testify for the defense to rise. All of the 28 defendants, including Mayor Donn M. Roberts, Judge Eli Redman and Sheriff Dennis Shea arose.

The defense then placed on the stand Harry Montgomery, president of the Donn Roberts board of public works and a defendant in this case.

Montgomery made a general denial that he took part in any election fronds but Daily forced him to admit that he worked voting machines for voters contrary to law. He said he worked them "on request to protect them against rough usage." Montgomery became confused and contradicted himself several times on cross-examination.

The government today appropriated the voting machine which had been brought here by the defense to show that a voting machine used at the Terre Haute election could not be manipulated illegally. George W. Greenleaf, expert mechanic of Rose Polytechnic school, demonstrated that the lever could be moved fourteen inches and slammed back without registering.

District Attorney Dailey then recalled evidence that Mayor Roberts had conducted a school for inspectors in which he instructed them to operate the machine for themselves and used the machine in showing them how to do it.

Damaging evidence was given yesterday afternoon against Harry Montgomery, president of the board of works. Rolla Jenkins, clerk of the registration board, testified that Montgomery continually operated the lever of the voting machine over protest of members of the board.

Continued on Page 3.

The Secret of Advertising

Advertising is a very simple thing—simplicity itself.

It can be summed up in this way.

Having something to say—
Saying it in the right way—
Saying it in the right place at the right time.

And in the latter phase of the problem the daily newspaper stands pre-eminent.

It is essentially the right place and as it is published day in and day out it is easy to suit the words to the time.

Newspaper advertising is the most productive form of advertising.

Notice to Contractors

Notice is hereby given that the undersigned School Board of Rushville, Rush County, Indiana, will at their office at Rushville, Indiana, until the hour of 1:00 o'clock P. M.

MARCH 29, 1915,

receive bids for the following supplies and fixtures:

- 1—Electric Light Fixtures and their installation, for the Graham Annex School Building, Rushville, Indiana.
- 2—Auditorium Chairs, eight hundred more or less.
- 3—School Desks, three hundred seventy, more or less, twenty per cent of which must be adjustable.
- 4—Teachers' Desks—ten.
- 5—Thirty-six school room chairs; and four tables for sewing.

In accordance with the specifications and plans therefor now on file at the office of the School Board at Rushville, Indiana.

Each bidder will be required to deposit with his bid a certified check on a reputable bank to the amount of five (5) per cent of the gross amount of his bid, made payable to Dr. J. B. Kinsinger, Treasurer of the School Board, Rushville, Indiana, which shall be retained by said treasurer of the Board as liquidated damages in case such bidder shall be awarded the contract and shall fail within five days thereafter to enter into a contract and execute a bond for the fulfillment of the work contemplated, according to said plans and specifications. Checks of unsuccessful bidders shall be returned after the execution of a suitable contract and bond by the successful bidder.

Bidders upon items 2, 3, 4, 5, 6, shall bid separately upon the different items, but may also make a bid for the completion of the whole amount.

The School Board reserves the right to reject any and all bids.

BERT A. MULLIN, President.
DR. J. B. KINSINGER, Treasurer.
H. A. KRAMER, Secretary.
School Board of the School City of Rushville, Indiana.

WILSON PEACE EFFORTS FAIL

His Emissary Will Leave Berlin Tomorrow Convinced Negotiations Are Untimely

GREY SAW IT FAVORABLY

But Foreign Secretary's Speech in London Knocked Chances into Into Cocked Hat

BY CARL W. ACKERMAN
(U. P. Staff Correspondent.)

(Copyright 1915 by U. P.)

Berlin, (Via The Hague), Mar. 27. President Wilson's newest effort to bring about a cessation of hostilities in Europe has met with failure. Colonel E. M. House, the president's personal emissary will leave Berlin for Switzerland tomorrow convinced that peace negotiations at the present time are impossible.

Despite denials from Washington, Colonel House came to Europe on a mission of peace. I learned from authoritative sources that he was sent by President Wilson to sound the governments at war and learn through informal interviews whether there was any possibility of a truce and a peace conference before the spring campaign caused more blood to be shed on the battlefields of Europe.

Colonel House conferred with Sir Edward Grey, England's foreign secretary with the French prime minister Rene Viviani, and finally with Herr Von Jagow, secretary of German foreign affairs. With all possible courtesy and with the most kindly interest Colonel House has been told that there is no possibility of a peace compromise at this time.

It was reported in diplomatic circles here that Sir Edward Grey was supposed to look upon a conference of the warring powers quite favorably. President Wilson's emissary brought that word to Berlin but while Colonel House was engaged with German officers Sir Edward Grey delivered a bitter attack on Germany in a public lecture in London, assuring his hearers, according to reports published here, that the allies were determined to crush Germany at any cost. Grey's speech knocked any lingering chances of peace into a cocked hat.

The German people were never more confident of eventual success. A second recount of the war loan showed that a total of \$2,355,000,000 was subscribed and aroused the greatest enthusiasm in government circles.

Savings banks throughout the Fatherland are crowded with members of the working classes eager to subscribe. It is probable that a still greater total will be reached because the date for closing the subscription has been extended until April 10 enabling soldiers afield to subscribe.

West Virginia is Broke

State Treasurer Temporarily Suspends Honoring of Drafts.

(Associated Press)

Charleston, W. Va., March 23.—West Virginia has declared a moratorium. With no funds in the state treasury, State Auditor John S. Darst has suspended the honoring of drafts. This means that all state officers, from the governor down, will not be paid for probably three months, that all buildings under course of construction will be halted and all supplies for institutions can not be bought except for cash. The main cause for the trouble is said to be the loss of more than \$600,000 revenue annually from liquor licenses throughout the state. One result is to put the military out of existence.

Rushville and Rush County

As has been predicted for several weeks the Indiana Brewers Association is using the last few days of the campaign to flood our city with statements *UNSUPPORTED BY FACTS*, in order to confuse the issue and mislead the voter. The *PAID AGENT* of the Brewers greatly underestimates the intelligence of our citizens if he thinks his plan to deceive will not be generally recognized. It is not his purpose to carry on a campaign of education as to the benefits of the open saloon, or he would have begun his work two or three weeks ago. He waited for the last four issues of a daily paper with the hope that there would not be time enough to make reply.

HIS STATEMENTS ONLY

The assertions in the wet ad. are only the unsupported statements of the *PAID AGENT* and nothing more. He would raise a scare-crow to our business men by telling them they are losing trade and that it is going to surrounding wet cities. Mr. Brewery Agent knows this statement is not true. *OUR MERCHANTS KNOW THIS STATEMENT IS UNTRUE*. The fact is that for the past two years, the business of our own merchants has been much above the average of those of nearby cities and Mr. *PAID AGENT* doubtless knows this fact also.

RUSH COUNTY THE NATURAL TERRITORY

The natural territory for business of our own merchants is Rush county, not Henry, nor Shelby, nor Hancock, nor even Marion county as the Brewers adroitly intimate. When they say: "Surrounding us (meaning Rushville) are thriving communities, etc.," they speak the truth and they might have added with equal truth that these Communities Are All Dry. If here be such a demand on the part of the people of our county for the saloon in Rushville, Will The Brewers Explain how it happened that at an election where the voters of the entire county had an opportunity to express themselves on this subject the MAJORITY AGAINST THE SALOON WAS 2200 and practically all of this majority came from the voters outside of Rushville. Also, how does it happen Mr. *PAID WRITER* for the Indiana Brewers Association that *NOT ONE* of these thriving communities of our county supports or tolerates a single saloon in their midst and according to your argument thus draw to itself the trade of the county. Has it ever occurred to the Brewers Association that the women of our county are desirable patrons of our merchants? Do you think they would be attracted to Rushville by the presence of the open saloon?

THE ALLEGED AWFUL LOSS

Listen to the Awful Loss sustained by the people of our city and county in revenue. The Brewers' *PAID AGENT* tells us that the county would receive \$1400.00 per annum. Think of this immense sum going to the people of our county. It would mean the Large Amount of SEVEN CENTS each for the persons living in the county. This would not pay for Gasoline for a Single Trip to Rushville. But, he says, the city loses \$3500 which the saloons would pay. This statement presents a simple sum in Arithmetic (for we have not discussed the moral question at all.)

Question—Where do the Saloons get this money?

Answer—From their customers, the people of Rushville.

Question—What is the population of Rushville?

Answer—About 7000.

Question—How much would this be for each person?

Answer—FIFTY CENTS.

Question—After paying fifty cents would the person paying it have more money left to pay the grocer and other merchants?

Answer—Certainly Not.

Question—By paying the fifty cents would the person paying it become more efficient and able to earn more than before?

Answer—No. He would be Less Efficient.

Question—Then how would other and legitimate lines of business be benefitted?

Answer—They would not for many men would not stop with fifty cents but must of their earnings would go to the saloon, their families would suffer and the trade of our merchants would decrease.

Question—Would there be any expense to our City and County in securing this revenue?

Answer—Yes. Reliable statistics tell us that for Every Dollar the Community or State receives from the Saloon it pays out from TWO TO THREE DOLLARS in increased cost of Crime, Poverty and Insanity.

Mr. *PAID AGENT* in his Ad., asks "Do We Get Our Money's Worth?" Will he be kind enough in his next communication to the voters of Rushville, whom he seeks to instruct, to explain what he means by that expression, "Do we get our money's worth." Has he a money value for all the things the Saloon brings? If so tell us Mr. *PAID AGENT*, what is your valuation of a *Mother's Broken Heart*—how do you estimate in dollars and cents the *Crushed Life of a Wife and Ruined Home*—tell to this community how the saloon would pay for the *Blasted Hopes of a Young Man* or the *Ruined Life of a young Girl*? *Does Human Life Have No Value Beyond a Money Estimate?*

But you will say, these things will happen even if there are no saloons and you did say in your Ad., "Prohibition causes no decrease in the amount of liquor consumed." Then tell us Why the Indiana Brewers Association is Paying You to Come to Rushville to Advise the People in This Campaign? Such an Exhibition of Pure Unselfishness on Your Part and Theirs is Truly Remarkable and Worthy of a Better Cause than the one you represent.

Again we Warn the Voters of Rushville Not to be Stampeded by the Unsupported Statements of the *PAID AGENT* of the Indiana Brewers Association Given out in the Last Hours of the Campaign.

VOTE "YES" FOR RUSHVILLE.

Chas. W. Eliot on Prohibition

President Emeritus of Harvard University

Former President Eliot of Harvard, sums up the whole case against prohibition in its effects on the social and political life he says: "The efforts to enforce it (prohibition) during forty years past have had some unlooked-for effects on public respect for courts, judicial procedure, oaths and law, legislatures and public servants. The public has seen law defied, a whole generation of habitual law-breakers schooled in evasion and shamefulness, courts ineffective through fluctuations of policy, delay, perjuries, negligence and other miscarriages of justice; officers of the law double-faced and mercenary, legislators timid and insincere."

—Vernal Cassidy of Bloomington is spending the spring vacation with his parents, Mr. and Mrs. James Cassidy, west of the city.

—Miss Myrtle Holmes returned to Muncie this morning, after being called here on account of the death of Abraham Holmes.

—Miss Freda Hiner, who is attending Indiana University at Bloomington, is visiting her parents, Mr. and Mrs. John D. Hiner, in this city.

—A. F. Stewart, professor of Latin in Monmouth college at Monmouth, Ill, and formerly a member of the Rushville high school faculty, is here visiting relatives and will return to his home Monday.

—Miss Sallie Ferree left this morning to spend the day in Carthage, and from there will leave tonight, accompanied by Miss Blanche Jessup of Carthage, for a few days stay at Winona Lake, Ind.

TWENTIETH ANNIVERSARY.

Oak Leaf camp No. 3, 915, Royal Neighbors of America, celebrated their twentieth anniversary last Tuesday evening. Following a bountiful supper sixteen candidates were initiated by the Shelbyville degree team at eight o'clock. The work was highly appreciated. The remainder of the evening was spent in dancing and with games. The visiting degree team was met at the train and escorted to the hall.

Mrs. Fred Newman of Raleigh underwent an operation this morning for appendicitis at the Sexton sanatorium.

GOVERNMENT RESTS TODAY

Continued from Page 1

the Progressive sheriff and scores of citizens.

When the defense tried to show the oarod consented to let Montgomery do this, Judge Anderson said: "It makes no difference whether any one agreed to it or not. The evidence is that Montgomery did it. The law says he had no right to do it."

Dave Hanna described how he and Joe Jeffers called citizens into the polls after the machine was set up "to show them everything was square." After the citizens had left they pulled 119 false registrations from behind a beer box, he said, wrote the names into the official records and voted them.

Joe Jeffers, former special patrolman and confessed gunman and conspirator, admitted that Mayor Roberts instructed him to select a "fixed" Taylorville election board so that a false vote could be run in.

"Roberts told me not to appoint any fools that could not be handled. He said he didn't want anybody on the board whom he couldn't buy," said Jeffers.

People's Column

Editor Daily Republican.

In a "wet" advertisement in your paper yesterday the statement was made that eleven business rooms were vacant and 5 out of the eleven had been vacant for two years. Now what are the facts? To my personal knowledge every one of the 11 business rooms have been occupied part of the time during this period with possibly the exception of P. A. Miller's room on East First street, and if the truth were known I believe this room was not absolutely vacant all of the time during the two years, but was "occupied" part of the time. At least I have noticed men going in and coming out of it every time I made a business call upon Mr. Miller, while performing my duties as City Treasurer. Either the writer of that "wet" ad. was woefully ignorant or wilfully lied.

But what about our business prosperity during the two years that Rushville has been "dry?"

There has been the Beale Brothers business building on the east side of the square and the Rushville Steam Laundry Building, and the Sampson Grocery building and the Michael Seankan business building built during that period; also an addition to Clark & Son's Mill and The Charels E. Francis Co. factory. One new green house established and another one greatly enlarged; and our electric welding machine shop built. There has been five new grocery stores opened up and one new variety store during the same period.

Government statistics show that during the past two years 20 per cent. more workmen were out of employment in "wet" Connersville than in "dry" Rushville; 25 per cent more laboring men unemployed in "wet" Newcastle than in "dry" Rushville; 30 per cent more laboring men unemployed in "wet" Richmond than in "dry" Rushville; 35 per cent more laboring men unemployed in "wet" Shelbyville than in "dry" Rushville. If saloons bring prosperity why was this condition possible?

Now, a word as to the future of Rushville. If the saloons are voted back, it will be for only two years, and we will have to go through the same process of re-adjustment we have just gone through; but if we keep them out this time they will never be able to come back again, and our empty business rooms will eventually be filled with business that will be permanent and not be a menace or disgrace to our 20th century civilization.

"Has Rushville got what she bargained for?" Yes, and "then some," therefore I am going to vote "yes" next Tuesday. JOHN P. STECH.

Amusements

The Gem will show a feature picture "The Monster and the Girl" for the program tonight. Miss Vinnie Burns is featured. One of the thrilling scenes is a fierce struggle on a jagged cliff with a sensational plunge to the rocks below. Another of the big scenes is a fire at sea. Monday night the two reel detective drama "A Gentleman of Art" will be shown. Dorothy Phillips and William Welch is featured.

The Princess will show a two reel comedy "A Mix-up in Dress Suits" for the first picture tonight. Billy Quirk is featured and it is said to be a clever production. The other is a drama entitled "By a Strange Road." Richard Travers and Gerda Holmes are featured. On Monday night the five reel Brady feature "The Wishing Ring" will be shown. Vivian Martin is featured.

ROBBERS STEAL \$10,000

Blow Safes in Chicago Mail Order House Early Today.

(By United Press.)

Chicago, March 27.—Eight masked robbers early today broke into the mail order offices of Babson Brothers, bent Watchman Kasterly insensible, blew five safes and escaped with an amount between \$4,000 and \$10,000. Kasterly may die. The robbery was one of the worst in the history of Chicago. Vice-president Babson said there must have been ten explosions.

Let's All Get Together

Isn't it about time for the people of this community to get a little closer together and work in a little closer harmony one with the other?

A country town and the farming community surrounding it are brothers and the one cannot succeed without cooperation and active assistance of the other.

A farming section without its adjacent railroad and market facilities would be a back number—a dead-end—with little future ahead. Live farmers would shun it—would have nothing to do with it—for live men create a surplus, and they must have an outlet for that which they create.

A farm adjacent to some live town and shipping facilities is worth double that of a piece of ground with equal fertility located in some obscure section of the country. The relative value of the products of the two farms would be about the same—the one high, the other low.

Therefore the farming community is dependent upon the town and its advantages for much of the rural prosperity, for the high value of land, for the ease with which shipments are made.

Farmers who believe in themselves who want a prosperous community, should encourage the town and its industries—should buy from the home dealers, should keep the money in the home community, where it adds to the commercial life of every person.

Every dollar a farmer keeps in circulation at home simply adds that much to the riches of his own community, to the value of his own holdings.

The town and the town merchant owe an equal duty to the farmer, for without his cooperation both town and merchant would perish.

The town should make the farmer welcome, let him feel that he is among friends, that it is his town, that he has a personal interest in its welfare.

The merchant should make it possible for the farmer to buy his goods as cheaply at home as he can from some foreign house, and he should keep this fact constantly before the farmer.

He should encourage the farmer by keeping reliable goods and selling them at a reasonable price. Most merchants do this, although the absence of the merchant's advertisement from the local paper keeps the farmer in ignorance of the fact.

He should encourage the farmer in all ways, exhibit a brotherly feeling and spirit, and give the farmer to understand that he is interested in his welfare as well as in the contents of his pocketbook.

It has been demonstrated repeatedly right here that farmers can buy as cheaply from the local dealer as they can from a foreign house.

But the foreign dealer floods the farmer with advertising matter, while some local dealers expect to be taken on faith.

And the farmer is a wise one—let takes nothing on faith.

"Show me" is his creed. And he goes to the man who advertises—who "shows him."

Now isn't it about time for us all to think a little, to get together, to push this community right up to the front.

General Carranza is compelling foreigners to "rough up" "kick in" hand over their "dough." And so did Huerta—before he skidded. Let's hope.

We heard a fellow discussing wheat yesterday without the aid of an eye lid. Some people always do talk in the millions.

The courage of some men is sublime. A New York judge has just ruled that a wife's wages belong to her husband.

A married woman invariably feels flattered when told she does not look it. So do we.

Columbus, Ind., 592 "Wet"

"Drys" did not carry a single ward in Columbus Option Election.

"Wets" gather in more than 62 per cent of the entire vote of the city.

WHY?

Because after a public discussion of the drink problem lasting more than a week the intelligent citizenship of Columbus, both men and women, came to the conclusion that the openly and lawfully conducted liquor traffic was infinitely superior to the secret, unlawfully conducted Blind Tiger—Prohibition Liquor Traffic. The citizenship of Columbus determined that if to drink was an evil, that they did not propose to add the vice of hypocrisy to the evil. The "Drys" sent in a petition signed by alleged "dry" farmers asking that Columbus be made dry. Some Columbus business men asked these supposed "dry" farmers if they would take oaths of total abstinence, providing that the business men should recommend Columbus climbing on the wagon. Not one of these vociferous "dry" farmers would make any such pledge. The idea! Then, said the business men of Columbus, if you intend to buy liquor secretly, by mail order, you had better buy it openly in Columbus, a much more decent and manly thing.

The business men of Columbus declared after investigation, that they did not believe that there could be found ten men in Bartholomew county who would sign a total abstinence pledge. Everybody got to laughing and pretty nearly everybody voted "wet."

Another thing Columbus business men studied was the rate of taxes of nearby dry towns as compared with wet towns. Here are the figures.

Tax rates of nearby "dry" towns in Indiana as compared with "wet" towns, figures being obtained from the auditors of the several counties:

DRY TOWNS

Bloomington, Monroe county	\$4.60
Mitchell, Lawrence county	4.44
Bedford, Lawrence county	3.84
Rushville, Rush county	3.82
Average rate of "dry" towns	\$4.17½

WET TOWNS

North Vernon, Jennings county	\$3.76
Shelbyville, Shelby county	3.04
Seymour, Jackson county	3.56
Columbus, Bartholomew county	3.04
Average rate of "wet" towns	\$3.34

Average higher rate in "dry" towns than in "wet," eighty-three and one-half cents on the hundred dollars.

Here is another little table applying directly to Rushville's Tax Rates:

1912—Wet	\$3.27
1913—Dry	\$3.58
1914—Dry	\$3.82

Always going up. The "Drys" will say that Prohibition Government has nothing to do with these figures. But they couldn't tell that to the business men of Columbus. There were twelve orderly conducted saloons in Columbus, each paying \$500 a year into the treasury. Columbus found that the loss of this money would mean a 9 per cent increase in the city tax rate. In addition, that city would have to borrow \$6000 at once to take care of city expenses if the city treasury were deprived of the \$6000 license money to be paid in next month. The Columbus business men investigated Greensburg. They found that as soon as the eight saloons were voted out of Greensburg, the council met at once and raised the city tax rate from \$1.05 to \$1.10.

CITY TAX RATES

Rushville, "Dry"	\$1.85
Columbus, "Wet"	\$1.10

Columbus owes \$100,000 for city water plant and tax rate of \$1.10 takes care of interest charges.

Columbus people asked the "Drys" what the city was to receive in the way of benefits, if the taxpayers should vote for Local Prohibition. Columbus asked the "Drys" what kind of businesses were going to be started in the twelve fine business rooms now occupied by the liquor dealers. The "Drys" didn't answer, for they couldn't. They tried to make the Columbus business men believe that by some sort of mysterious hocus-pocus

that tenants would be found for the rooms just as the Children of Israel were fed by manna from Heaven. Nix for the Columbus business men.

Another thing the Columbus business men found out was this—that very bad moral conditions prevail in those communities which have voted out the licensed liquor dealer in favor of the blind tiger and dope drug store. Mr. Andrew Willoughby, former mayor of Greensburg, and now editor of the Greensburg Review declared in a public statement that the twenty-three publicly conducted blind tigers in Greensburg were instilling disrespect for all forms of the law and that the moral conditions of the city were the worst in the history of Greensburg. Traveling men say that Greensburg is the wickedest city between Louisville and Chicago.

Muncie voted out the licensed liquor dealer a year ago. Every man who reads the newspaper knows the conditions that prevail there now. Two hundred blind tigers! Secret murders! One Tiger conducted within a block of the High School! School boys seen drinking in this resort! City employees urging girls to enter lives of shame!

The thing that lives in light,
So that all men can see,
Is cured of half it's wrong,
If it an evil be.

Liquor has been used by the human kind ever since there has been any record of what men have done. That it will probably be used until the end of time is demonstrated by the fact that the very men who don't want the other fellow to use it, will not agree to stop using it themselves. They can trust themselves, but they can't trust the other fellow. They want to tell the other fellow that he "shall not" use it. The result is that the other fellow, not permitted to drink lawfully insists in doing it unlawfully.

The "dry" banishes the licensed saloon from the public eye and says "all is well." The traffic is simply driven into the alley or dark retreat of some kind and the blind tiger and bootlegger take up the work. The attitude of the dry is just as sensible as the man who puts a little talcum powder on a dangerous sore and says, "Now, I cannot see it. Therefore all is well. The sore may kill the man, but he won't know it until after he is dead.

In 1899 we manufactured 97,000,000 gallons of whiskey. In 1913 we manufactured 185,000,000 gallons. The "drys" now claim 54 per cent of territory "dry." The Anti-Saloon League has had fourteen years to produce these results. Question: How much whiskey will we consume if it should make the whole country "dry?"

From 1905 to 1913 we reduced the total of retail liquor dealers 23,758. "Great," says the "dry"—but wait a minute. During the same time we increased the number of wholesalers 3,296. People who buy by wholesale drink by wholesale. That's why Kansas and Maine are going to the dogs. Kansas, the Prohibition Paradise, suffered an actual numerical decline in population last year. The governor of the state admits the people are sending away more than \$2,000,000 a year for whiskey. The mail order houses are getting rich, but Kansas is getting poor. The state is so poor that its public school system ranks the twenty-fourth in the United States as to efficiency and twenty-ninth as to payment of teachers. The people are so poor that their per capita savings are only \$4.15. The average per capita savings for the whole country is \$71.50. Poor old "wet" Indiana has more than \$13,500,000 in the savings banks with 33,650 depositors—\$388.01 to each depositor. The Prohibition Paradise has a little more than \$4,000,000 in the savings banks with 20,240 depositors, an average of \$231.69. "Wet" Indiana has more than three dollars to one for the Prohibition Paradise. These figures are given by Hon. Royal E. Cabell, in an article in Leslie's Illustrated Weekly, Nov. 12, 1914, page 466, gathered from United States Census Bulletins.

The most singular phenomenon of the effect of humbuggery prohibition is its influence on the spiritual life of the people of Kansas. There are forty-four states in the Union and Kansas stands forty-third as to church attendance. The churches are deserted. Just enough pastors to marry and bury the people. A New York World writer in attempting to analyze this phenomenon suggests that since Kansas is sending millions away each year to buy whiskey while pretending prohibition, neglecting the education of her children so that this terrible secret vice may be enjoyed, casting her unfortunate insane into poor farms to eke out their miserable lives, another price paid for mail order whiskey; that the Kansas man has lost his self respect; that he knows he is a fraud and that he knows that his pastor knows it, too. The Kansas man does not want to face his pastor. Jesus could stand anything but hypocrisy. The lie of Prohibition is killing religious sentiment in Kansas. Evidently there is something even worse than Intemperance—Ungodliness, perhaps.

That's your Prohibition movement and the intelligent men of the country are getting wise to it. They don't want it. Cardinal Gibbons is against it. Charles Eliot, emeritus president of Harvard is against it. William H. Taft is against it. Woodrow Wilson is against it. Theodore Roosevelt is against it. Washington Gladden, the great Congregationalist Divine of Cleveland, O., is against it. The Rev. Lyman Abbott, editor of the Outlook and associate of Col. Roosevelt is against it. These men know that the use of alcoholic liquors among men cannot be stamped out by law. There never was a great thinker in the whole world who has believed it possible. Thoughtful men know that the drink problem is an economic, educational and medical problem. It is not a moral problem. Therefore the wise men of the world say that licensed regulation is the thing.

Rushville cannot settle the drink problem for the world. Any town will weaken itself financially when it tries to do so. The Rushville business man is unjust to his business and his family when he votes to uphold any such madness.

Get in line with the big thinkers of the world.

VOTE "NO" MARCH 30th

Acts of Recent Legislature Are Explained by Expert, John A. Lapp

(This is the twelfth of a series of articles explaining the new state laws written for the United Press by John A. Lapp, director of the bureau of Legislative Information, Editor.)

For the Blind

The Indiana Association of Workers for the Blind made a good record this year during the session of the Legislature and three laws were passed benefiting our blind citizens. Governor Ralston it will be remembered, specifically recommended legislation for those beyond school age who have lost their sense of sight and the most important of the enactments in behalf of the blind was in response to his recommendations.

This new law confers on the already existing board of trustees of the Indiana school for the Blind an additional title of the Board of Industrial Aid for the Blind. There are additional duties the most important of which are, first, to make a complete survey of existing blindness in the state with particular stress on the capacity of the blind for educational and industrial training and on the prevention of blindness; and, second, to act as an employment bureau to find work for the adult blind who need such assistance, to help them in learning and establishing home industries and

in finding a market for their products.

These are the "shall" parts of the law, which must be carried out. But further "may" or permissive clauses appear by which the board is given power if it wishes to exercise it, to establish schools for the adult blind and work shops for their employment. Also the board may attempt to ameliorate the condition of the blind by promoting visits to their homes and by cooperating with the state library in distributing books in type for the blind. Any officers, agents or assistants that the board decides are necessary in carrying out any of these lines of work it is authorized to appoint and to fix their compensation. It will be interesting to see how much the new board can accomplish with the appropriation of \$10,000 which, wisely distributed, and in good administrative hands, ought to go far in helping those already handicapped by loss of sight and in beginning a campaign of prevention.

Another bill advocated by the Indiana Association of Workers for the Blind was one requiring all state institutions and officers to purchase articles produced under the supervision of the Board of Industrial Aid for the Blind. In the original bill, this applied to the products of the Indiana school for the Blind but was

changed later to keep it in harmony with the work of the proposed Board of Industrial Aid and both bills having become laws, they are supplemental to each other. The products of the work which the new board promotes and conducts which suited to the needs of any state institution or political division, must be purchased by such institution or office unless it already itself manufactures or produces a similar product. The board will issue a printed descriptive catalogue of all articles produced by persons under its supervision. This act follows a previous law passed in 1905 which made similar provisions for the sale to state institutions and offices of articles manufactured at the Indiana Reformatory.

The third law in which the blind will be interested is a short one. It prohibits the impersonation of blind deaf and dumb persons and others physically deficient for the purpose of obtaining money falsely, and provides that any one assuming any such impersonation, after having been held a reasonable time for identification shall, on conviction, be punished by a sojourn in jail for from one to six months or by a fine of from \$10 to \$200.

Tuberculosis

"Tuberculosis being hereby declared to be an infectious and communicable disease" this is the way the new Harmon tuberculosis law begins and it is not only the beginning but the whole heart of the law according to some people. With tuberculosis legally classed as an infectious disease the doctors who

have been longing and dreaming of quarantining tuberculosis and treating it as practically as smallpox and diphtheria, begin to see their dreams come true. Under this law every care and attention that the law bestows on infectious diseases can be applied to the white plague.

Further under this law, specific provisions are made as to physicians' duties in regard to tuberculosis and as to the duties of owners and agents of rooms, or houses or apartments or premises occupied by tubercular persons and as to the duties of state and local health officers the names and addresses of all persons known by them to be infected with tuberculosis—this includes physicians who are chief officers of hospitals and institutes, and school physicians. The local officer reports in turn, to the State Board of Health where the information is tabulated and used as a basis for state wide investigation into the statute and ravages of the disease with the purpose of enlightening the public and arriving at the best methods of cure and prevention.

The local health officer must also ascertain the name of the owner or agent of the residence of any person reported to him as having tuberculosis, and notify him that the person occupying his premises has tuberculosis and that he must if the person dies, or moves away report that fact to the health officer, who must then thoroughly disinfect the premises before they can be re-occupied.

Here is the method and formula for disinfection after cases of tu-

berculosis as prescribed by the law:

"All windows, outside doors, and exist of such apartments, house, room, or premises shall be closed and all inside doors, closets, drawers and shelves of the aforesaid apartment, house, room or premises shall be open during the process of disinfection for a period of not less than two (2) hours and a separate vessel of the disinfectant hereinafter provided shall be exposed in each room and hall; in a temperature not lower than 50 degrees above Fahrenheit and with atmospheric moisture of not less than 6 per cent. of saturation there shall be used 10 ounces of formaldehyde and 5 ounces of permanganate of potash per 1,000 cubic feet of room space; in a temperature not higher than 50 degrees Fahrenheit and with atmospheric moisture not exceeding 60 per cent of saturation there shall be used 20 ounces of formaldehyde and 10 ounces of permanganate of potash per 1,000 cubic feet of room space."

Violations of the act by physicians, health officers, or owner or agent will be penalized by a fine of from \$10 to \$50.

VOTE "DRY" FOR RUSHVILLE

The normal trade territory of the City of Rushville is Rush County including the smaller towns. This territory is 75 to 90% dry instead of 50% as claimed in the Wet advertisement. At the first County Local Option election Rush County was dry by practically 2100 majority. Over 1200 representative citizens of the County have signed a petition asking that **Rushville be kept dry this time.**

Carthage, Milroy, Manilla, Homer, Moscow, New Salem, Clarksburg, Fairview, Falmouth, Andersonville, Orange, Glenwood, Raleigh, Mays, Sexton, Arlington, Gwynneville, Morristown, all are dry.

Under a dry regime, our merchants have greatly prospered. The \$150,000 to \$175,000 that formerly went through the tills of saloons, now goes through the cash registers of the grocers, the dry goods men, the boot

and shoe stores, and all of the other legitimate business places. Ask them if business is not better. The dead beat list is practically eliminated in Rushville.

Rushville is a far better town in a business way now than the towns named in the "Wet Ads." There are no unemployed here, no soup houses, no bread lines, while Connersville, Shelbyville and Columbus have all had hard times and droves of idle men. Ask them.

The tax rate has increased in "wet" Shelbyville, Connersville and Brookville from 20 to 60 cents in the past two years. Mr. Voter, don't be deceived by the "last hour" statement of the "Indiana Brewers Association."

They pay men salaries to write "Wet Ads.," but they are not greatly concerned over the moral welfare of Rushville. They are after the Dollar and nothing else.

VOTE DRY FOR RUSHVILLE

(Advertisement.)

FAST TEAMS TO APPEAR HERE

With Indiana State League and Preliminary Games Fans Should Have Good Baseball

OUTLOOK IS VERY BRIGHT

Cambridge City and Becker's Team Will Play Around Circuit Before Season Starts

The schedule for the Rushville team for the month of May and before the Indiana State league season opens is as follows:

- April 25.—Perkins-Campbell.
- May 2.—Dayton Shilohs.
- May 9.—Cambridge City.
- May 16.—Hamilton Hoovers.
- May 23.—Cincinnati Muldoons.
- May 30.—open.

Before bringing the team here for the opener Manager Davidson will play Weihe's All-Pros at Cincinnati and the Hamilton Krebs at Hamilton. From the above schedule and with the games in the Indiana State league the fans here are assured some of the best baseball in the history of the city. The league season will open on June 6.

With a salary limit of \$65 for each team in the league the teams should be evenly matched and the league race be close from start to finish. Manager Davidson says the boys are "crazy" about the league and

will work their heads off to cop the pennant. A pennant winner for Rushville is none too good and the fans feel certain that the other teams in the league will know Rushville has been in the race.

The local directors will meet Sunday and talk over things pertaining to the club's interests. It takes money to finance a team and those who have not come across for their stock are urged to see the treasurer. Work on the grounds will start next week and from then on things will hum in the baseball world here.

The fans will be given an opportunity to see how the various league teams size up by the schedules that have been arranged. Cambridge City will play here May 9, at Connersville May 2, at Richmond May 16, and at Newcastle May 23. Becker's team will open here April 25 and play around the entire circuit. Becker will play at Connersville, May 9, at Newcastle May 16 and at Richmond May 30. In this manner the fans will get acquainted with the players and the relative strength of all teams can be obtained.

FIGHT POSTPONED.

(By United Press.)

Havana, Cuba, March 27.—The Johnson-Willard fight which had been set for Sunday, April 4, Easter, was today postponed to Monday, April 5 at the request of President Menocal o Cuba. After a delegation of clergymen had visited the president, he wrote the promoters offering to make Monday a legal holiday and asking postponement.

Rev. H. L. Phillippi, pastor of the Christian church in Milroy will deliver an address next Friday night at the school auditorium in New Salem, on the subject, "Around the World in Ten Steps."

WANTED TO BOOK FED TEAM HERE

John Spinney Desired to Place Pittsburgh Team Here For Four Games in April

GROUNDS NOT YET IN SHAPE

John Spinney, of Cincinnati, desired to book the Pittsburgh Federal league team here for four games starting April 1, but the offer had to be turned down because the grounds are not yet in shape. The offer was a good one for the local association but it would have been impossible to play the Feds here at this time.

Next season the association intends to bring some team here for spring training. This year Connersville, Richmond and Newcastle will have teams from the Southern Michigan league and there is no reason why Rushville should not get a team. Spinney in his conversation to the secretary of the local club stated that he was sorry Rushville could not take hold of the proposition as it would have meant real money to the club here.

GIVE DEGREE AT LIBERTY

The degree team of Bernice Eucampment Number 12, I. O. O. F. of this city will go to Liberty this evening, where they will confer three degrees on several candidates tonight. Next Wednesday, a degrees team from College Corner, O., will come here for work.

Hobson Found Out

The ridiculous Richmond P. Hobson declared on the floor of Congress that 6,000 people were dying daily in the United States from alcoholism. Henry Watterson looked up the books and found that the census figures showed that in 1912 only 3,183 people in the whole United States died of alcoholism. Where do these Prohis get their wonderful figures?

MANY NICKNAMES GIVEN FOR TEAM

Fans Working for Season Pass But More Names are Needed to Select From

SOME HAVE NOVEL IDEAS

Fans should not overlook the season pass offered for the best nickname for the Rushville team. Already names have been sent to the Sporting Editor of the Republican, but more are needed to make a selection. One fan would call the team "Rushers." Another has submitted the word "Sluggers" for a nickname and another fan has offered the name "Greenbacks" as a fitting term for the team.

The fan giving the name "Greenbacks" had an original idea even if he was not an Irishman. He suggested that the team to carry out the nickname have the backs of the players shirts in green material. Some loud effect, this green idea. Still another answer has been received. This fan would have the team called the "Ru-co-am-as." Little bungle some but his idea was that the word took into consideration the Rush County Amusement Association. More names are needed.

ORATORICAL AND TRACK MEET HERE

High School Events Will Take Place in Rushville May 8.—Thinly Clads at Fair Ground.

ARE ALREADY PRACTICING

The annual track and field meet of the Southeastern Indiana High School Athletic Association will be held at the fair grounds here on Saturday, May 8. The oratorical contest held in connection with the track meet will be held either on Friday evening or Saturday night, the exact time not having been determined. The track meet and oratorical contest was held at Shelbyville last year.

The schools represented in the association are Shelbyville, Rushville, Westport, Greenfield, Sheridan and Greenwood. The local athletes are busy getting in plenty of early training and the material, according to Coach Burns, looks better than in former years. Entries to the meet will close ten days before the event.

D. E. Roberts, piano tuner will be in Rushville next week. Leave orders at Abercrombies Jewelry store.

Given An Inch, Shoe Dealers Take All Feet By Storm With Creations

BY MARGARET MASON
(Written for United Press.)

Stunning Sara's short skirt shows Stockings sheer and sleazy. Also slippers smart of suede. Course they do, they're squeaky.

New York Mar. 26.—It boots you naught if you be not well shod. This Spring for the shoddily shod will not only need ashine but be one. What are the new short full skirts good for anyway if not to show tootsies smartly slipped and sheerly socked. Never has the running gear been in such bewilderingly brilliant condition as offered in the diverse footgear for 1915. Having been given an inch the shoe designers have taken all feet by storm with their many fascinating creations. The last fashions have become the first consideration of milady's spring wardrobe.

Because of the great popularity of the high laced boot this winter the low laced shoe or Oxford tie is being received with welcoming feet. In its most popular rejuvenated form it comes with a black patent kid vamp and upper of buckskin in all shades of grey tan, and brown. White uppers of buckskin with the black patent kid vamps are also extremely smart especially with the many all black and white costumes of stripes polka dots and checks. On all the new spring models the long slender English last in combination with the high Louis XV heel is noticeable.

In spite of the Oxfords return the pump still lingers in the good graces and on the graceful feet of the woman of fashion and it, also, like the Oxford is most popular in the combination of two colors, the black patent kid or bronze vamp and the colored buckskin top. Pumps and Oxfords in entire buckskin of grey, tan bronze or white are also very good and fine Russian leather shoes both high and low in the delicate shades of champagne, pearl grey and cream are to be much worn in one tone scheme or in combination with the black or darker shaded leathers.

All black patent kid slippers with two or three narrow straps over the instep are offered for wear with light tinted and white silk hosiery and the all bronze slipper with straps is also used successfully with the light toned stockings.

It is amazing with what tenacity the high shoe clings like ivy to the well rounded limb. It seems loath to give the low shoe a chance. They certainly come high figuratively and monetarily the most swagger of them, for they are made of the finest softest Russian leather in either white or champagne colors offset with tiny tips or black patent kid and a border of the same up each side of the lacing and around the top. We are bound to take more than one last look at these striking last fashions.

For evening and dance wear the plain satin slipper either strapped

or in simple pump form has the stamp of modish approval. It comes in all colors of satin and it is equally smart to match your slipper to your gown or to wear a contrasting shade.

Perhaps the newest and most unique of the evening slippers is a model with its upper of one shade and its vamp of a contrasting lighter tint braided in horizontal stripes with braid the same color as the darker upper. Evening slippers of brocade and metallic tissues are decidedly passe but beaded ones of bronze still toe the Fashion line.

Sport shoes of white buckskin with soles equally snowy of white felt or white rubber are extremely effective this year with trimmings and bandings of colored leather. Usually these colored trimmings are of mahogany colored or green leather but any colors are permissible.

Among the high sport shoes the one of white buckskin with a heel very low and flat of mahogany is the very sportiest.

Assuredly there is no excuse this year for putting your feet down unless you can put the best foot foremost. To the tasteful woman with good understanding that means getting there with both feet.

Relatives have received word here of the birth of a baby girl to the wife of John Gantner, Jr., of Omaha, Nebraska. Mr. Gantner formerly resided in this city.

"Prohibition Can't Be Enforced," Says Cardinal Gibbons

Makec Hypocrites, Leads to Illicit Whisky and Robs Government, Declares Cardinal.

"Prohibition will never be enforced in a Christian country," said James Cardinal Gibbons, in a statement made public at New Orleans March 9, 1914. Cardinal Gibbons was paying his annual visit to his brother, John T. Gibbons of that city. "While I am an ardent advocate of temperance, I am intuitively persuaded that prohibition cannot be enforced in this country," continued Cardinal Gibbons. "It is calculated to make hypocrites and lead to the manufacture of illicit whisky, replacing the good material with the bad, while at the same time robbing the government of the legitimate tax."

CONFERENCE IS TO BE HELD HERE

Next County Meeting of Christian Churches at Rushville, it is Decided.

CLOSE AT ARLINGTON FRIDAY

New Officers Are Elected and Addresses of Interest to Members Heard.

The annual county conference of the eighteen Christian churches of Rush county, which closed at Arlington last night, was one of the most successful gatherings of the kind ever held. All of the churches were represented and there were many visitors in addition. At the closing session last night when C. W. Canble, state secretary of the Indiana Missionary society of the Christian church, gave an illustrated lecture on the Christian church in Indiana, there were 350 persons present.

The next county conference will be held here in Rushville. The visitors were lavish in their praise of the members of the Arlington church for their fine hospitality. Both dinner and supper were served free of charge to the visitors in the basement of the church yesterday.

Will H. McMillin of the Plum Creek Christian church was re-elected president of the county organization. George C. Wyatt of this city was re-elected secretary-treasurer. Other officers elected were as follows:

Superintendents of divisions, Sunday school, Mrs. Marshall Heaton; C. W. B. M., Mrs. Roy Waggener of this city; Christian Endeavor, Lloyd Nelson of Milroy; religious education, John H. Frazee of this city.

The illustrated lecture last night gave an enlightening review of the accomplishments of the Christian church in Indiana. The Rev. C. E. Power of the Fairview Christian church led the devotional exercises last night.

The afternoon session closed yesterday with an address by the Rev. Garry L. Cook, state Sunday school superintendent of the church, on the subject, "The Efficient Sunday School Teacher." Mrs. Griest, state president of the C. W. B. M., spoke of the work of the organization yesterday afternoon at 2:30 o'clock. At two o'clock C. W. Canble, state secretary of the Indiana Missionary society of the church, spoke on "The Every Member Canvass." The opening half hour of the afternoon session was devoted to business matters the morning session yesterday began at ten o'clock, the devotional being led by the Rev. W. D. Bartle, pastor of the Hannigan church. The morning gathering was devoted to the annual president's address, the report of the churches of the county by the corresponding secretary and the report of the county superintendents. From eleven to twelve there was the discussion of problems as follows: Sunday school, led by the Rev. Moody Edwards, pastor of the Little Flatrock Christian church; C. W. B. M., led by Mrs. J. D. Case of this city, a vice-president of the state organization; Christian Endeavor, led by the Rev. H. L. Phillips, pastor of the Milroy church, and Missions, led by the Rev. C. M. Yocum, pastor of the Rushville church. The opening session Thursday night consisted of devotional exercises by the Rev. D. L. Milligan, pastor of the Arlington church; address on the subject, "Our State Program Work," by G. I. Hoover, district evangelist, and one by G. L. Cook on the subject, "The Church as an Agency for Religious Education."

PASSENGER TRAIN LATE.

Passenger train number 34, north bound on the Big Four, due here at 11:02 this morning had not reached this city at three o'clock, owing to a wreck of a freight train near Brewersville, Ind., south of North Vernon. Freight service was also tied up on this division.

WAR HELPFUL TO INDIANA CONCERN

Shells That Are Bursting in Europe May Owe Being to Small Factory in Indianapolis.

LATHES TURNED OUT THERE

(By United Press.) Indianapolis, Mar. 27.—Shells that are bursting in Europe may owe their being to a small factory here in Indianapolis; it is probable that some sharpened shells being used by the allies was turned on lathes manufactured at the local factory of the International Machine and Tool Co., which has worked at full capacity 22 hours a day since the war began.

In the small building at Twenty-first street and the Belt railroad expensive lathes are turned out. These are shipped to other factories which manufacture shrapnel. No contracts have been made with any government the officials say. The lathes sell at from \$2,000 to \$2,500.

The shrapnel shell contains bullets or pieces of iron, and at a time fuse that causes it to explode over the desired object when properly timed. It was invented by General H. Schrapnel of the British army.

BATTERING FORTS AT A LONG RANGE

Allied Fleet Begins Systematic Attack and Will Not be Exposed to Forts' Fire

FOUR OR FIVE SHIPS A DAY

(By United Press.) London, March 27.—The super-dreadnaught Queen Elizabeth, supported by the battleships Triumph and Agamemnon and the cruiser Cornwall, has entered the Dardanelles and has begun a systematic battering of the Turkish forts at long range, according to Athens dispatches.

The Anglo-French fleet will not again expose itself to attack at close range, Athens cable. At a conference of fleet commanders it was determined to begin a methodical and incessant shelling of the Turkish defenses. From four to five warships will enter the straits each day. By pounding away in this fashion from day to day the fleet will keep the defenders busy and try to prevent the replacing of damaged guns.

Miss Pauline Patton, daughter of Mr. and Mrs. W. E. Patton of near New Salem, has sold a fine Shetland pony to James Hall, southwest of this city.

Rabbi Mendel Silber on Prohibition

"The advocates of prohibition are confounding cause and effect. While it is true that drink has often proved a curse in this country, yet the evil lies not in the drinking, but in the conditions that make for drunkenness. The laxity of home ties and the lack of the proper home surroundings—two acknowledged failings of our masses—he at the root of the evil. As long as the saloon will appear more attractive than the fireside, and a man's confederates more congenial than his conjugal companion the state of intemperance and immorality will exist. And even if the saloons be closed by law and the selling of liquor be prohibited by legislation the moral status of the people will not be improved. Hedged in by code, but hampered by conscience, man will find other and worse avenues of vice to gratify his unbridled desires."

OCTOGENARIAN IS DEAD WEST OF HERE

Funeral of John Addison, Who Died Near Gwynneville, Will be Held Sunday.

LEAVES MANY RELATIVES

The funeral services of John Addison, an octogenarian, who died at his home just northwest of Gwynneville at the age of eighty-three years Thursday evening, will be held at the Hargrove M. P. church, near the late home, Sunday morning. The cortege will leave home about nine o'clock. Burial will take place at Asbury cemetery, near Morristown. He has been in poor health for a long time and his death was expected.

Mr. Addison is survived by a widow, three daughters, three sons as follows: James T. and David, Hanover township, and Jasper, Hancock county; two half-sisters, Mrs. W. D. Keaton and Mrs. Mary Stevens, Rush county; one half-brother, John W. Addison, Rush county; one stepdaughter, Mrs. Ollie Anderson, Greenfield.

Mrs. E. C. Lee, who is quite ill with pneumonia, was reported as being improved today.

FARMERS FINISH SPRING PLOWING

Work at This Season is Farther Advanced Than is Usually the Case.

Acreage is Heavy

FREEZES MAY HURT WHEAT

Farm work in the vicinity of Rushville is farther advanced this spring than it has been at this time in the season for several years past. Several farmers have completed their spring plowing and some have begun harrowing the soil and placing it in condition for planting. Large numbers of farmers in various parts of the county have from 75 to 100 acres of corn ground al-

ready plowed. The acreage this year will be unusually heavy.

Until the last two or three weeks wheat had been looking fine. The freezes of the last few days, however, have damaged it somewhat in the opinion of a good many farmers.

"DOPE" FIEND ON TRAIN

Taken Through Here Today on Way to Madison Asylum.

A "dope" fiend who has felt the ill effects of the new federal "anti-dope" law was taken through here this morning on the Big Four south-bound passenger train, due at 8:03 o'clock, on the way to the insane hospital. He was strapped to a seat in the front part of the smoking compartment. He was a weird looking sight and was singing hymns in a loud voice.

Best by Test, Fair Promise 5c Cigar

Rev. Lyman Abbott

Editor of Outlook

on Prohibition

"It was not the method of Jesus. He lived in an age of total abstinence societies and did not join them. He emphasized the distinction between His methods and those of John the Baptist, that John came neither eating nor drinking; the Son of Man came eating and drinking. He condemned drunkenness, but never in a single instance lifted up His voice in condemnation of drinking. On the contrary, He commenced His public ministry by making wine in considerable quantity, and of fine quality, and this apparently only to add to the joyous festivities of a wedding."

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

Be as Particular

in choosing your hatter as in choosing your tailor.

A correct hat is necessary to correct appearance.

Mallory Hats

Cravenette Weatherproof

have been made so long and so carefully that the little niceties of hat aristocracy are inbred.

Mallory Hats are never freakish nor off balance.

We like to sell these hats to particular dressers, because a Mallory stays dressy, even after long wear.

RUSHVILLE, INDIANA

FIGHT FOR STATE PROHIBITION ON

Anti-Saloon League Announces it
Will Make Effort to Get Bill
Through Next Legislature

CAMPAIGN TO START AT ONCE

Organization in Every County to
Elect "Dry" Men Contemplated,
According to Announcement

Indianapolis, Ind., March 27.—In its first official statement since the adjournment of the state legislature, the Anti-Saloon League announces that it will begin at once a state-wide campaign for the passage of a prohibition law by the legislature two years hence.

It is understood that the League had no hope of passing a prohibition bill in the last legislature, and it introduced the same only as the opening move in their 2 years fight for the measure. Work has already begun toward perfecting citizenship organizations in every county in the state. These local organizations will be used to secure the nomination of "dry" men for the office of representative and senator in the next General Assembly.

It is announced that county organizations will be composed of men of all political parties who will seek to influence the nomination of "dry" men on all party tickets. It is pointed out that the new primary law will make it possible for "dry" men in every county to organize and to make themselves felt directly in choosing "dry" candidates for the legislature.

The League has already let it be known that a number of members in both houses of the last legislature belonging to the three political parties, are acceptable, and these men will be recommended for re-nomination and re-election.

As a part of the campaign, printed copies of the Wright prohibition bill will be circulated broadcast over the state. A chart has also been prepared showing how members in both branches of the recent legislature voted on temperance measures, which will be given widespread circulation.

That the League means business is indicated by the fact that it will undertake at once the raising of a campaign fund of \$100,000 to finance the fight through the next two years.

Is It Justifiable— Britain's Ban on Trade With Germany?

A grave complication which may have far-reaching consequences for this country and which is already costing much anxiety and money, has arisen through Britain's action in banning all neutral commerce to Germany. Every shade of public opinion regarding our duty at this juncture, which has no parallel in international law, is reflected in THE LITERARY DIGEST for March 27th.

Thoughtful Americans will do well to read the DIGEST very carefully this week. From no other source can the reader get such a complete knowledge of how this country stands on this question and what steps are favored.

What the Liquor Press Thinks of the Prohibition Wave

That there is a mighty flood of prohibition sentiment gaining volume in the United States is admitted by the attitude of the liquor press, which is accurately and vividly shown from every angle in this week's DIGEST.

But these are only two features. In addition, every subject uppermost in the public mind finds adequate and strictly non-partizan treatment by text, photograph, and cartoon in this foremost weekly news-magazine—Politics, Science, Invention, Religion, Literature, Art, Drama, Sports, receive the same attention as the absorbing news of the war.

It Saves Time and Money for Busy People

No other magazine is read so carefully and confidently. From the highest government officials, diplomatists, and statesmen, its circulation extends into every business, occupation, and profession in every country, embracing a million thoughtful readers weekly. And this impressive clientele is increasing rapidly. It is high time you became acquainted with THE LITERARY DIGEST if you have not already done so.

This week's number will give you a clear idea of its unique service to busy people.

NOTE—In many places the news-dealer is selling out his DIGEST supply so quickly that many readers are often disappointed in failing to get their copy. Give your news-dealer a standing order for THE LITERARY DIGEST and you will always be sure of getting yours.

CONFERENCE FOR Y.M.C.A. EMPLOYEES

Will Discuss How to Reach Wage-Earning Boy and How to Teach Foreigners English

SWIMMING MEET TO BE HELD

(By United Press.)

Indianapolis, March 27.—How to reach the wage-earning boy, and the best method of teaching English to foreigners will be two main subjects discussed at the conference of all employed officers of the Y. M. C. A. in Muncie, April 14, 15 and 16. The conference was announced this afternoon at the state association headquarters here.

Shop meetings on a large scale will be discussed. Charles R. Townsend, head of the industrial department of the international committee will be one of the main speakers. E. L. Shuey of Dayton, O., of the firm of Lowe Bros., paint makers will speak.

On the last night, will be held the state swimming meet. All meetings will be in the new Muncie building.

Its "Raymond Chap" when you want hand and face bleach. 312118

OVER A MILLION CARED FOR DAILY

Belgian-American Relief Commission is Doing Wonderful Work in Stricken Country.

ORGANIZATION PERFECTED

Over 50,000 Volunteers Are Now Enrolled in Distribution of Food and Clothing.

(By United Press.)

Brussels, Belgium, March 12. (By Mail to New York.)—One million four thousand people, who are absolutely destitute of any other resource, are now being cared for daily in Belgium by the Belgian-American Relief Commission.

This organization has been perfected in all parts of the country. Over 50,000 volunteers are now enrolled in the work of distributing relief and bureaus have been established in all of the principal cities and towns.

One of the first tasks of the Central Bureau has been the securing of accurate figures of the manner in which the Belgian population has been dispersed by the war. On the first of last August the little kingdom had a population of 7,700,000. Of those who fled before the Ger-

man advance and occupation 110,000 found refuge in England, 350,000 in Holland, and 50,000 in France. Still others scattered in different countries bring the total number that fled and that is still residing out of the homeland up to 700,000.

The province of Liege is the one in which destitution is greater than any other. It suffered the severest of all the Belgian provinces. A total of 300,000 are being cared for there by the relief commission. In the province of Hainaut there are 150,000 helpless.

In this province of the rations allowed by the German administration to the population is limited to 125 grammes of bread a day. The rations of the German soldier is 750 grammes. At Antwerp as a special favor an increase has been made to 250 grammes a day for the population.

COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulstified cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulstified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

BEING WOUNDED GRUESOME THING

To be Hit Feels Like Being Punished
So Many Soldiers in the
Trenches Says.

RELIEF METHODS EXPLAINED

Often Soldier is Shot While Being
Carried to Safety on Shoulders
of Comrade.

BY PHIL RADER.
(Written for United Press.)

(Copyright 1915 by United Press.)
London, March 1.—Being wounded in our trenches was gruesome business. If a wounded man dropped back to safety he was extra lucky, for everything that was done for him during the first few hours only tested his waning strength and was likely to make his condition worse.

Often a man would not know he was wounded for some time. One chap came limping up to the trench one day complaining that he had been shot in the leg. He could hardly put his right foot to the ground. He ripped open his trouser leg and could find no bullet mark. Then we discovered that he had been shot through the forearm and that the wound was hours old.

To be hit feels like being punched, so many soldiers have told me. When a man sank in our trenches the fellows who were not busy usually gathered around him while some one ran two miles through the trenches to get a Red Cross man. Within half an hour the Red Cross man would come. If the wound was not bad the man would remain in the trenches, after the doctor had soaked it in iodine, which burns like fire. If the wound was serious the doctor would do the best he could in the way of dressing it and then one of us, or perhaps two would be detailed to take the unlucky man back to safety. He had to be carried through two miles of trenches. It was impossible to use a stretcher swing owing to the sharp turnings, and, if, you carried a man on your back, you

WANTED AT ONCE! 20,000 People to Walk On this Rug

We Want to Make This the Most Severe Test Possible for a
Floor Covering

We Hope it Rains and Snows and Freezes

We will not take this rug in on account of bad weather. We want you to track on all the dirt and grit you can, test it to your own satisfaction—that is what it is out there for. A rug can not be tested properly unless it is given a fair chance. This rug will be out on the walk early in the morning and late at night. Men and women going to and from work early or late will be requested to walk over it.

We Positively Guarantee

that this rug was taken from our regular stock and was not specially made for this demonstration. You can always buy one just like it here anytime.

The Sidewalk Test—What it Means to You

This sidewalk test is made for your benefit, for the benefit of every housewife who wants to know just what she is buying. THE SIDEWALK TEST PROVES THE WORTH OF WHITALL RUGS. Seeing is believing. It allows the people of this community to see for themselves just what abuse these Whitall Rugs will stand.

WE WANT YOU TO HAVE THEM

We Have Our Spring Buggies In!

and they are ready for your inspection and we extend you an invitation to call and look them over this week as it will be to your interest to make your selection between now and the closing day of our Opening. We will explain why when you come in. We have the finest buggies ever placed on a sample floor and we want you to look them over. If you need a Storm Buggy this is the correct place to get what you want. We are not selling them at a reduction of \$25.00, however, but we are selling them just the same as we have all season at \$100.00. We have always said that our price was just as low at any time as the cut prices of our competitors, and we are always ready to do as we advertise. When a merchant advertises he has made a cut of \$25.00 on a buggy use a little common sense in forming an opinion about this like the fellow that was in a state of Coma, and his friends thought he was dead, but before time to bury him he showed signs of life. When he rallied enough to talk his friends asked him how it seemed to be dead. "Dead," he exclaimed, "I knew all the time what was going on and I knew I wasn't dead, too, because my feet were cold and I was hungry and I knew that if I was in heaven I wouldn't be hungry and if I was in the other place my feet wouldn't be cold. Now if you will study out 99 per cent of the cut price argument you will see just about as much to them as there is in this little story. In other words, somebody has to be the goat, and the man that takes \$25.00 off of a buggy during a sale must have a lot on when he is selling regular. Buy your buggies where the price is always the same and as low as any cut price sale ever advertised in Rush County. Let the other fellow be the goat this time.

WILL SPIVEY, at Oneal Bros

had to be careful at many places to keep his head down below the trench walls as well as your own. One of our fellows who had been wounded in the leg and was being carried on the back of a comrade, was shot through the head and killed one day at one of the many dangerous turnings in our trench system.

After this two mile trench journey was ended, the man had to be carried along a pathway down a 200 foot cliff. Here he was safe from bullets or shells but a warm clean, hospital bed was still millions of miles distant. Here he would be taken into a peasant's house where the first-aid men were on duty. There would be nothing but straw for him to lie upon. The first-aid men would dash cold water on to his face, wash his wounds and bind them as best they could. Then the wounded man would lie on the straw until nightfall, for it was necessary to carry him through a firing zone to get back to the infirmary, which was another little house in a town a mile distant. He would either be wheeled along the tow-path of the canal on a stretcher made of two baby carriages, which were connected by a board or "Charon" would carry him in an old boat. Charon was an old French peasant with long white whiskers. His boat was floored with straw and because he carried only the most gravely wounded men, who often died during the mile journey down the canal, we used to call him "Charon" and we named the canal the Styx.

At the infirmary there were real surgeons, but they were pressed with work, and they were forced, of necessity, to perform their operations hastily, in an improvised operation room.

If the wounded man were still alive by this time, he would be put

into a Red Cross wagon or automobile, or some other sort of a vehicle and carried 30 miles to a large town (which I cannot for obvious reasons name) and here he would be put on the next Red Cross train and started for Paris. His bed in the train might be a seat in a third, second or first class coach; or, if he was lucky, it might be a sheeted bed in a regular Red Cross car.

At last his train will pull into Paris or into some other distant city of France where there are big hospitals. Scores of ambulances will be waiting in the railroad yards. The ambulance attendants will be running around, each seeking out the wounded who are to be assigned to the hospital which he represents. To them he is only a number, or perhaps a chalk mark on the door of the car. They will put him on a stretcher, place him in a huge motor ambulance, perhaps with one or two other men who have been injured on distant battlefields and the car will race through the streets of the city to the hospital which once seemed to the sufferer so many miles away, and where warm white beds, gentle nurses, flowers and no responsibility await him. It is no wonder that the wounded men who reach the hospital wards sink back onto the pillows with sighs of relief and smile when they catch the first glimpse of the white nurses. Look back at the journey he has taken since that moment he was hit in the trenches and you can understand how a hospital ward looks like heaven to a wounded soldier.

To get into a hospital is one of a soldier's dreams and there are strict laws in all armies against men wounding themselves. In the French way this self-wounded is known as "mutilation" and the punishment is death. In our regiment an ex-convict who had been released after serving fifteen years in order to permit him to enter the army, persuaded another soldier to shoot him through the hand. In return for the favor he also punctured the hand of the soldier. When they came to have their wounds dressed the doctors noticed powder marks on their mangled hands and arms and the truth came out. Both men were executed.

If you are troubled with Rough skin remember "Raymond Chap." 312418.

Equipment of the Ohio Standard Suction Sweeper

The Motor—Especially designed for the OHIO-STANDARD, consuming a minimum of current and costing less than one cent per hour to operate.

The Floor Sweeper—12 inches wide, with friction brush, freshening the carpets without injury or wear. The powerful suction gathers all the dust and dirt the first time the sweeper is run over the surface.

Capp Plumbing & Electric Company

The Dust Bag—A single twist of the thumb detaches the dust bag; it is emptied in a moment without raising a particle of dust, and no germs escape back into the room.

The Switch—Firmly imbedded in the motor dome, safe and secure from accident and almost automatically operated from the handle.

Guarantee—The OHIO-STANDARD is sold under an absolute guarantee which is sent with every sweeper, freeing the purchaser from any risk, and insuring constant, satisfactory, safe and sanitary service for years to come.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

With The Churches

Regular services at St. Mary's Catholic church, conducted by the Rev. M. W. Lyons. Masses at 8:00 and 10:00 a. m. Vespers at 3:00 p. m.

Christian Science services every Sunday at 10:45 a. m. and Wednesday at 7:45 p. m., at northwest corner Fourth and Harrison streets.

There will be preaching every Sunday at the Glenwood M. E. church. Morning services at 10:30 o'clock, evening services at 7 o'clock and Sunday school at 9:30 o'clock.

St. Paul's Methodist Episcopal church, A. D. Batchelor minister. Sunday school 9:15 a. m. After the study hour E. B. Thomas will address the school on "Decision." The pastor will preach a Palm Sunday sermon in the morning. There will be no evening services in view of the union temperance meeting at the Christian church. Wednesday 2:30 p. m., the Ladies Aid Society will meet with Mrs. Lon Havens, in North Main street; assistants to the hostess, Mrs. Will Havens and Mrs. George Havens. The meeting is called for Wednesday instead of Tuesday on account of election day. Thursday 7:30 p. m. the midweek meeting for prayer and Bible study. The pastor will lead the meeting.

First Presbyterian church, 9:15 a. m. Bible school, B. O. Simpson, superintendent; 10:30 a. m., Divine worship, Palm Sunday services. Special music. Sermon, "The Royal Christ." 2:00 p. m., women's meeting to be addressed by Mrs. Stanley. 2:30 p. m. junior society. No evening service. Thursday evening, prayer meeting.

"Two Great Commandments" will be the subject of the Rev. S. G. Huntington at the First Baptist church Sunday morning. Other services as usual except the night meeting when a union service will be held.

Observance of the Lord's Supper will take place Sunday morning at the United Presbyterian church and the sermon by the pastor, the Rev. A. W. Jamieson will be keeping with this. There will be no evening service on account of the union meeting.

Elder W. A. Christian of Springfield, Ill., will preach at the Primitive Baptist church Saturday night, Sunday morning and Sunday night.

At the Main Street Christian Church, Sunday night, four of the ministers will make short addresses. The Rev. D. Ira Lambert will speak on the liquor dealer's pet phrase, "Personal Liberty" and show the fallacy contained in the words. The Rev. A. D. Batchelor will have for his subject, "The Basis of Modern Temperance Agitation." The Rev. S. G. Huntington will discuss the "Responsibility of the Voter." The Rev. C. M. Yocum will handle "The Local Issue Before Us." It is hoped to make this the most enthusiastic meeting of the campaign. Let the members of all the churches be present.

Delicious brown cakes made from Mrs. Austin's Bag Pancake Flour. All grocers.

BRISCOE

\$785 Including electric self-starter, electric lights, generator, one-man mohair top and boot, wood or wire wheels, speedometer, high-tension magneto, windshield, etc.

This French Car Has No Competitor

There are plenty of people satisfied with ordinary, cheap, unattractive cars, hastily built and hurriedly bought. Others, with no more money to invest, want a really high-grade light car. The Briscoe Car appeals to these discriminating purchasers, because it is built of the finest material, with the greatest care in workmanship—a car of assured reliability and of highly finished, artistic appearance. The manufacturers intended that the Briscoe Car should satisfy discriminating buyers by years of service and by a quality of service beyond their expectations. The Briscoe Car was first built in the Briscoe experimental shops at Billancourt, near Paris. The leading French engineers collaborated in producing it. It is the finished product of three years' careful investigation and study on the part of Americans who have had fifteen years' experience in building American cars. The Briscoe has been tried and proved under every conceivable practical test, both abroad and at home. Arrange for a demonstration to-day. In demonstrating the new Briscoe Car we want to put it through the severest tests you can suggest. We want you to see its smooth propulsion at all speeds, under all conditions of control, on all sorts of roads and hills. You will quickly realize that you are riding in a different kind of car than you expected for this price. You will begin to understand the genius of French engineering, and you will no longer wonder why French automobiles were able to sweep everything before them at the recent Indianapolis races. Come in to-day, or phone us for a demonstration.

Note carefully the following features, boasted of in cars costing \$1100 to \$1400. You would demand them if you were paying \$1500 or \$2500. The BRISCOE has them—without additional charge:

French Chassis	Electric horn button on steering wheel	Home comfort seats	High-tension magneto
French Line body designed by Carrosserie Internationale, Paris	Ajax Tires (Guaranteed 5,000 miles)	Left hand drive	All bearings bronze lined with Babbitt (not found in other cars under \$2000)
107 inch wheel base	Flush instrument board carrying carburetor adjustment, speedometer, oil gauge and electric gauge	Chrome Vanadium steel	Motor, Bloc, L-head type
Sunken center head-light	Light weight, 1800 lbs.	One-man Mohair top and boot	Long-stroke, high-speed motor
Electric lights	Three-point suspension	Parisian curtains	Cylinders 3 1-8 x 5 1-8

LOSERS ARE TO TO BE REIMBURSED

State of Indiana Will Soon Begin Distribution of \$100,000 to Pay Farmers

FOR THEIR CATTLE KILLED

The state of Indiana will soon begin the distribution of approximately \$100,000 among stock raisers of nineteen counties who suffered losses because of the foot and mouth disease. The vouchers for the amounts due are being prepared by Dr. A. F. Nelson state veterinarian, and the warrants, to be cashed by the treasurer of state, will be issued by the state auditor. It is expected that the payment of the money, provided by a legislative appropriation, will be made within the next two weeks.

In the fight to stop the spread of the foot and mouth disease which for a time threatened to destroy the live stock industry of the state and country it was decided by the Federal authorities that all diseased herds should be killed and buried. The Federal government agreed to pay half the cost with the understanding that the remaining amount was to be paid by the state. The Federal government has made its payment to the Indiana farmers and assurance now is given that the state soon will be prepared to meet its share of the obligation.

LET'S GET TOGETHER ON THIS SILO SITUATION

I want to talk to every farmer around here who is planning on building a Silo this year. I can help you choose the kind of a Silo you need to feed your stock. According to my way of thinking, there is just one real silo made—and that's the **SAGINAW** **SAGINAW SILOS** are Steel-built. They stand up against wind storms. They are air tight. They give sweet, clean succulent silage all the way through.

A **SAGINAW SILO** will bring you more profit on the farm.

By all means let me tell you about the **SAGINAW SILO** before you decide on a Silo. Let's get together.

UP-TO-NOW IN DESIGN

Designs as shown by some firms are more or less freakish or fadish to attract the attention of the prospective customers with scarcely a thought of their wearing appearance or correctness in proportion. But then they are merely on paper and represent but a small loss if they don't take.

We have faith in our ability as rational designers and as proof we show at our works a most complete selection of ready to erect monuments designed by our nationally recognized designer,

GIVES HISTORY OF CATHEDRALS

Mrs. Demarchus C. Brown, in Illustrated Lecture, Shows Development of Architecture.

ON THE BRITISH ISLES

Pictures of Famous Old Cathedrals

Are Shown and Style Followed is Explained.

In her next to the last lecture of the series last night at the Graham school assembly room, Mrs. Demarchus C. Brown of Indianapolis spoke of the English cathedrals, explaining their origin and architectural development. The lecture was illustrated.

Mrs. Brown, said there were thirty great cathedrals on the British Isles. They were developed, she said, between the coming of William of Normandy and of Queen Elizabeth, during which time five centuries elapsed.

"In it all," Mrs. Brown declared, "we see the church as the center of life. There were no warring or jarring creed and everyone thought the church was his salvation. It was the religious spirit that built the wonderful churches.

"In those days there were the old craft guilds which were really the foundation for the present-day labor unions. They were groups of working men who bound themselves together for mutual benefit. They were a power that any ruler had to reckon with. Often they ruled communities. They might be in any trade. The guilds held up a fine ideal of craftsmanship, which is responsible for the beautiful churches. There was no distinction of craft. The painter and the sculptor ranked alongside with the baker, mason and reaper in the fields, and they were all classed as workers.

"The great buildings were expressions in stone and color of the men of the day along the lines of their feeling of beauty. It was their religion—something that has always been inspiring."

With the brief introduction Mrs. Brown then showed a series of pictures depicting many of the famous old cathedrals of Britain. She showed the picture of St. Martin's chapel, which was reputed to be the first ever erected on the Isle. Although built many centuries ago, it still stands.

Mr. Brown showed a picture of Barfesta, an old Norman church which was erected when the Normans had overrun England and which brought out the French style of architecture. There was also a picture of St. Joseph's chapel which dared to dispute with St. Martin's chapel the right to being the first ever built on the Isles.

Mrs. Brown explained the origin of the buttress which developed from the gradual spreading out of the base of the wall wherever there was a door or arch. Mr. Brown also showed many churches to reveal how the famous Norman arches predominated in all of the religious structures of the British Isles. The Norman arches were first rounding and later developed into pointed arches which were in a large measure the only sort of decorative designs used.

Mrs. Brown showed many pictures of old abbeys and monasteries and told something of their origin and history. She told something of the humor in Gothic architecture, which was often seen in the gargoyles, which were water spouts, often carved from stone grotesquely, that projected from the upper part of the building, often from the roof gutter. Mrs. Brown showed pictures of these gargoyles, declaring that it was doubtful if two alike were ever made.

Before the lecture, J. H. Scholl explained that there was a surplus in the treasury of the class of something like fifty dollars. He asked what the members of the class wanted to do with it. It was finally moved and seconded that a committee be appointed by the chairman, of which he should be a member, to

decide what disposition should be made of the fund, and members of the class were invited to make suggestions to the committee.

PLEADS FOR HELP FOR POOR "FRIENDS"

Dr. J. Q. Spradlin Says Average

Used of "Dope" Can be Cured in Few Weeks Time.

WILL DIE UNLESS RELIEVED

(By United Press.)

Dallas, Texas, March 27.—"The wealthy victim can obtain relief by paying for treatment, but the thousands of the indigent must go on suffering and dying unless relieved," said Dr. J. Q. Spradlin, calling upon state and local authorities to act in the emergency created by the enforcement of the Harrison federal anti-dope law.

Calling the law one of the greatest blessings the country has ever known Dr. Spradlin at the same time said a mistake was made in not providing treatment and relief for the unfortunate suddenly cut off from their "dope."

"In a few weeks time most of them could be cured," he said.

That thousands are addicted to the drug habit and do not know it was the startling statement by Dr. Spradlin.

"They have been having filled and refilled year in and year out," he said, "some prescription which has been found to afford relief from bodily suffering, and the physician who issued it is not aware they are still doing the prescription. Druggists fill these prescriptions, not feeling that it is incumbent upon them to ask questions."

Notice of Insolvency.

In the Matter of the Estate of Gates Sexton, Deceased.
 Notice is hereby given that upon petition filed in said Court by the administrator of said estate, setting up the insolvency of the estate of said decedent to pay the debts and liabilities thereof, the Judge of said Court did, on the 19th day of February 1915, find said estate to be probably insolvent, and ordered the same to be settled accordingly. The creditors of said estate are therefore hereby notified of such insolvency and required to file their claims against said estate for allowance.
 Witness, the Clerk and seal of said Court at Rushville, Indiana, this 19th day of February, 1915.
 (Seal) **ARIE M. TAYLOR**, Clerk.
 Claude Cambren, Attorney.
